The Granite Town . . .

The cover of this year's Town Report shows why Milford is known as The Granite Town in The Granite State. The beautiful and useful stone taken from our hills is a truly native product, used all over the country for building and decorative purposes.

The picture was taken on a frosty January morning by Bernice Perry, showing massive cuts made in granite ledges at the Kitledge quarry, owned by the Barretto Granite Corporation. As Milford has grown, its industrial sphere has become widely diversified, but quarrying and cutting granite has remained an important factor in the life of the town.

Smalley-Souhegan Co., Cutts land 1 1/3 acres, Brookline Road
Frank T. Lang, Queen Quarry, Brookline Road, and land on Brookline
Road

1969 Tax Rate — \$7.98 per hundred

Selectmen's Report

The administration of town affairs in a manner that serves the best interest of the community has been the objective of the Selectmen's office. This goal remains the same from year to year, and controls the actions of the Board. However, the time required to perform the Selectmen's duties in a responsible manner tends to increase because the consistent population growth expands the various municipal functions and problems.

Weekly meetings (Monday nights) with department heads are devoted to administrative and operational problems as well as policy matters. Citizens, committees and others also have the opportunity to meet with the Board at these times. Routine matters are resolved readily when established policies exist, but those resulting from expanding services or new demands require careful consideration and often the advice of Town Counsel.

It is the opinion of this Board that all departments are devoted in their efforts to provide the services needed and that all concerned are constantly attempting to accomplish this in the most economical manner.

The Communications Center continues to be a vital community service that operates efficiently and effectively. It has served the Towns of Mont Vernon and Amherst for several years and negotiations are nearly completed to continue the service to Wilton which was added last year.

Since the last annual town meeting, the Police Department has been operating with one full time man less than its authorized number. This has been possible because of the assistance of dedicated special police officers. Hopefully the vacant position will be filled in the near future.

Included among the larger current issues are such items as property evaluations, sewage disposal, additional water supply sources, solid waste disposal, public parking areas and traffic safety.

As a practical matter, the tax rate has reached the legal limit of \$80.00 per thousand, therefore, the problem of assessed valuations must be given immediate attention.

The preliminary investigation relating to sewage disposal is nearing completion and the town must be prepared to proceed with implementation of the findings.

The Kokko well site has been purchased and a warrant article will seek authorization to develop and add this new water source to the existing water system.

The town dump has been improved but existing legislation will eventually prohibit open-dump burning, therefore, an economical solution to this problem must be found. This Board initiated and participated in preliminary discussions with neighboring towns concerning matters of solid waste disposal because the last annual town meeting requested that a study be made by the Board of Selectmen. However, nothing has materialized and the problem remains at a standstill. The inadvisability of assigning tasks of this nature to a Board of Selectmen should be noted, because the time demanded by the normal duties of this office make such assignments impractical.

The availability of public parking areas and traffic safety are ever present problems. The Highway Safety Committee is active and undoubtedly will present recommendations for consideration.

The Municipal District Court facilities are inadequate and suitable space must be found. It appears that a suitable solution must await decisions concerning alterations to the town hall building. In the meantime the Selectmen must attempt to arrive at a reasonable and satisfactory solution.

Budget requests have been restricted to amounts considered necessary for proper and acceptable operation of the town and warrant articles are being included for the town's consideration.

We sincerely appreciate the assistance of everyone who has participated in the operation of our town and look forward to the guidance that comes from the annual town meeting.

SALVATORE P. GRASSO, *Chairman*
CHARLES F. SULLIVAN, JR.
CHARLES P. HAYWARD

WARRANT

State of New Hampshire

To the Inhabitants of the Town of Milford in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Milford Area School Auditorium in said Milford on Tuesday, the tenth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

(polls not to close before 6:00 P.M.)

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To act upon the reports of all Town Officers, Agents and Committees and raise and appropriate money relative thereto.
4. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of Taxes, if necessary, as provided by the law of 1907.
5. To see what sum of money the Town will vote to raise and appropriate to be used with income, if any, for the election and registration expenses, district court expenses, Public Works administration, town hall and other buildings, town office expense, town officers' salaries, civil defense, fire department, hydrant rental, police department, communications center, garbage collection, health department, sewer maintenance, town dump, vital statistics, highway maintenance, oiling, snow removal, street lighting, town road aid, Wadleigh Memorial Library, old age assistance, town poor, Memorial Day, parks and playgrounds, cemeteries, information booth, group health insurance, damages and legal expense, employees' retirement, employees' social security, insurance, police pension, interest on long term notes, interest on temporary loans, sewer correction, sidewalk construction, long term notes and county taxes.

WARRANT

6. Shall the Provision of Chapter 287 of the Revised Statutes Annotated relative to playing games of Beano be adopted in the Town.

7. Shall the revisions to the Zoning Ordinance, including the Zoning map, as proposed by the Planning Board be approved by the Town. (Vote to be by Ballot) (Planning Board)

8. To see if the Town will vote to raise and appropriate the sum of Seventy-Five Thousand Dollars (\$75,000.00) for the construction of a gravel packed well at the Kokko site, so-called, and access road, including engineering, development, pumps, pump house, fittings, controls, water mains necessary to connect the well to the existing water system, and any and all other equipment and/or services required to place the Kokko well, so-called, in operational condition, such sum to be raised by the issuance of bonds or serial notes authorized and issued under and in compliance with the provision of the Municipal Finance Act (Chapter 33 of the New Hampshire Revised Statutes Annotated 1955 and any amendments thereto) and to authorize the Selectmen to fix the date, maturities, denomination, the interest rate, or discount rate in the case of notes, the place of payment, the form and other details of said bonds or notes and providing for the sale thereof, or take any other action relating thereto. (Public Hearing Required – Vote to be by Ballot)

9. To see if the Town will vote to raise and appropriate the sum of One Hundred Four Thousand Dollars (\$104,000.00) to provide fire station facilities by remodelling and renovating the existing fire station and the first floor (Nashua Street level) of the library end of the Town Hall building including construction and alteration costs, architect and consulting fees, heating, wiring, plumbing, relocation of hose tower and any and all other material or services incident thereto, such sums to be raised by the issuance of bonds or serial notes authorized and issued under and in compliance with the provisions of the Municipal Finance Act (Chapter 33 of the New Hampshire Revised Statutes Annotated 1955 and any Amendments thereto) and to authorize the Selectmen to fix the date, maturities, denomination, the interest rate, or discount rate in the case of notes, the place of payment, the form and other details of said bonds or notes and providing for the sale thereof, or take any other action relating thereto. (Fire Station Study Committee) (Public Hearing Required – Vote to be by Ballot)

WARRANT

10. To see if the Town will vote to raise and appropriate the sum of \$4,500.00 to replace the International 1½ Ton utility dump truck.

11. To see if the Town will vote to raise and appropriate the sum of \$15,000.00 to provide two additional bays (approx. 1300 sq. ft.) to the Town Garage.

12. To see if the Town will vote to raise and appropriate the sum of \$6,500.00 to extend the bridge over the Meadow Brook on Jennison Road.

13. To see if the Town will vote to raise and appropriate the sum of \$3,000.00 to continue pavement installations on gravel drive-ways in Riverside Cemetery.

14. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 to be used by the Selectmen for investigations and professional assistance if required to reach recommendations concerning sanitary landfill or incineration as the solution to the Town dump problem.

15. To see if the Town will vote to raise and appropriate the sum of \$19,900.00 to replace the 1963 1½ Yd. Caterpillar Loader with a new Articulated Loader of 2 Yd. capacity.

16. To see if the Town will vote to raise and appropriate the sum of \$1,089.00 to replace the 1969 Chevrolet Police cruiser with a 1970 Chevrolet Police cruiser.

17. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 for contribution to the Nashua Community Council Mental Health Clinic. (By Request)

18. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the Milford Conservation Commission. This amount will be matched 50% by the Spaulding-Potter Charitable Trust. These funds, together with funds from other sources, to be used for the Conservation Commission's programs including improvement of Railroad Pond. (Milford Conservation Commission)

WARRANT

19. To see if the Town will vote to become a member of a Nashua regional planning agency. This agency will have membership of at least two of the municipalities in the Nashua area. The objective of this agency will be to plan for and encourage regional planning analysis, provides consensus on major problems of regional concern and to assist in the effectuation of projects which extend beyond the boundaries of a particular Town. The agency will have no jurisdiction over any matter of local affairs. It will be primarily advisory. Two members of the regional planning agency shall be from Milford to be appointed by the Selectmen.

20. To see if the Town will vote to appropriate the sum of 15 cents per capita (About \$900.00) to finance studies to be conducted by the regional planning agency. These monies will be used for financing planning studies which must be approved by the regional planning agency. These funds may be used in conjunction with other State and Federal funds available for planning purposes.

21. To see if the Town will direct the Selectmen to implement the following changes in the accounting procedures of the Town.

1. Each department operating under the jurisdiction of the Selectmen shall maintain an inventory control and maintenance record on each item of capital equipment, including vehicles, to establish property accountability and accurate records of maintenance costs for budget planning. These records shall be kept from date of purchase of equipment, and shall be current for equipment purchased after March 15, 1970. All equipment purchased prior to March 15, 1970 shall have complete records from date of purchase, such records to be completed by January 1, 1972.
2. Water Department expenses shall be kept completely separate from Public Works Department expenses. Any work done by the Public Works Department for the Water Department shall be charged to the Water Department at an hourly rate. Said rate shall cover use of equipment and/or labor.

WARRANT

3. Each department operating under jurisdiction of the Selectmen shall furnish to the Selectmen a report of their expenses and income at the end of each month. Due to the complexity of the operations of the Public Works Department, extreme care shall be exercised by that department to keep *all* material charges, and *all* labor charges separate from one another in the expense report. Departmental reports shall cover expenses and income for the current month, the year-to-date total, and the unexpended balance of the appropriation. The format for these reports shall follow the same format that will be used in the presentation of the budget requests for the year.
4. The Town Clerk shall assume custodial responsibility for the reports indicated in item three. These reports shall be forwarded to his office monthly by the Selectmen, where they shall be available to the public.
5. With the adoption of this article, \$1,500.00 of the money earmarked for the use of this committee shall revert to the general fund. Fifty dollars of the ballance shall be made available to the Town Clerk for the purchase of a filing cabinet for the monthly records, and the remainder of the balance (\$235.50) shall be made available to the Selectmen to defray the costs of preparing forms, labels, and other expenses incidental to the implementation of this article.
(Town Accounting Committee)

22. To see if the Town will vote to raise and appropriate the sum of \$1,910.00 for the support of the Monadnock Region.

23. To see if the Town will vote to have a committee appointed to study the possibilities of having a full time recreation director for Milford or in cooperation with Amherst and Mont Vernon and report to the Selectmen. (Parks and Playgrounds Advisory Committee)

24. To see if the Town wishes to exclude from social Security Coverage service in any class or classes of positions of election officials or election workers for a calendar quarter in which the remuneration paid for such service is less than \$50.00. (1969 Legislature amended Chapter 101 of N. H. Revised Statutes Annotated)

WARRANT

25. To see if the Town will vote to raise and appropriate the sum of \$24,000.00, over the next two year period, \$12,000.00 in 1970 and \$12,000.00 in 1971, for the purpose of hiring the assistance of the New Hampshire Tax Commission in reappraising all taxable real estate.

26. To see if the Town will vote to raise and appropriate the sum of \$4,630.00 as the Town's share of Town Road Aid — Apportionment B, this sum to be equally matched with State funds.

27. To see if the Town will vote to raise and appropriate the sum of \$2,500.00 to relocate the District Court within the Town Hall building.

28. To see if the Town will vote to raise and appropriate the sum of \$3,500.00, subject to the passing of the fire station Article 9, to relocate the Public Works' office on a temporary basis and to engage the same architect that is implementing the fire station plans to prepare preliminary layouts and costs for remodelling the Town Hall offices on a phase construction basis. Phase 2 to be presented to the 1971 Town Meeting.

29. To see if the Town will vote to authorize the expenditure of \$2,000.00 from the Parking Meter Fund for the purpose of reconstructing and resurfacing portions of Union Square.

30. To see if the Town will vote to raise and appropriate the sum of \$3,000.00 for the use of the Water Study Committee and the Board of Selectmen to retain an engineer, as needed, to assist them in reviewing and evaluating preliminary studies and costs relating to possible surface water supplies. The findings and recommendations to be presented to the next annual town meeting.

31. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and seventy.

SPECIAL REPORTS

Town Accounting Committee

At the suggestion of the Budget Committee, the 1969 Town Meeting voted unanimously to authorize the use of \$1785.50 to hire a qualified firm or person to examine the Town's accounting system; and to make recommendations for, and implement if possible within this amount, a modern and uniform accounting system for the Town of Milford. A five man committee was appointed by the Moderator to hire said firm or person and coordinate with the selectmen the implementation of this system (Town Warrant, Article 31).

This committee has had a number of meetings involving two former budget committee chairmen, the present budget committee, the town treasurer, the selectmen, the superintendent of public works, the committee studying the organizational framework of the Water Department, and a certified public accountant familiar with the town accounts. Some of our members have investigated the present Town accounting procedures, and we have discussed the problem among ourselves.

Based on information gathered from the above sources, we do not feel that there is need to hire a professional accountant to make sweeping changes in the present system. In fact, the implementation of the following recommendations should remove those defects in the accounting system that have been brought to our attention.

1. An inventory control and maintenance record should be kept on each item of capital equipment, including vehicles, to establish property accountability and to keep an accurate record of maintenance costs for budget planning.

2. Water Department expenses should be kept completely separate from Public Works expenses. Town labor or equipment used for Water Department business should be charged to that department.

3. Each department under the jurisdiction of the selectmen should furnish to the selectmen a monthly report of their expenses and income. This report should cover the expense and income for the current month, the year-to-date total and the unexpended balance of the appropriation.

4. It is desirable to have one person who would assume custodial responsibility for the reports indicated in item three. It is recommend-

ed that the Town Clerk assume this responsibility, and that these reports should be turned over to his office after the meeting of the selectmen, where they would be available to any interested person.

This committee has no authority to implement these changes, but we feel that if these recommendations meet with the approval of the Town Meeting, that the Town should take favorable action on the article in this year's Town Warrant pertaining to changes in the town accounting procedures.

Respectfully submitted,

RICHARD B. STETSON, Chairman
RICHARD P. FISK
WAYNE MURRAY
CHARLES WORCESTER
CHARLES ZAHN

Milford Conservation Commission

Several meetings and personal contacts with the abutters of Railroad Pond have been conducted throughout the year to obtain the easements necessary before any work can be done. It is the desire of the Commission to work closely with the landowners so that the completed work will be a benefit to them and to all the citizens of Milford. The disappointingly slow progress in this project is attributable to several factors: completion of plans and specifications, signing of easements, and monies available in the Federal cost-sharing part of the project.

Two articles were presented in the 1969 town warrant and passed. One applied for \$1000, subject to a grant of \$500 from the Spaulding-Potter Charitable Trusts. The Spaulding-Potter Charitable Trusts fund is available over a period of three years to a maximum of \$2000. The other article requested that the custody and control of the land at the present town dump area (North River Road) be given to the Commission, when the dump is phased out.

Other activities of the members of the Commission have included the following: Members of the Commission visited "Monson Rock" which marks the proposed site of the meetinghouse (1756) of the

Town of Monson. This historic spot is located on the south side of Federal Hill. It is the hope of the Commission that this area will be preserved. A soil survey of the town of Milford was requested through the Hillsborough Conservation District.

Members of the Commission joined Amherst and Mont Vernon Commission members and visited Beaver Brook Association in Hollis, where the hosts were Tudor Richards and Jeffrey P. Smith. Representatives of the Commission attended an "Open Meeting" in Mont Vernon to hear William R. L. Mead on August 26, and the fourth annual meeting of the New Hampshire Town Conservation Commissions in Henniker on October 21.

The Commission sponsored a student, Stephen Richardson, at the Spruce Pond Conservation Camp at Bear Brook the last week of June.

Charles Curtis was appointed by the Town Moderator to be on the Water Study Committee. Mrs. William H. Foster was appointed and Carl Holland was re-appointed to a three year term on the Commission.

Town History Committee

Work on the new Town History has progressed very well in 1969. The research has been assembled and typed by several ladies who have been most generous with their time, the book has been fully planned and most chapters are in the hands of writers. Genealogy forms have been sent to a large share of Milford citizens of 25 years duration. Older families are being sought and contacted but it will take time. The committee is pleased with the response and hope that all forms will be returned with as much information on them as possible. These records prove invaluable for settling estates, clearing titles to deeds as well as tracing ancestors. Doctors neglected to record births and deaths in the early part of the century and marriages were often not recorded as well as out of town deaths.

Parks & Playgrounds

In assessing the parks and playgrounds proposed budget for 1970, it is hoped that the voter will consider the fact that this year the participation in the summer program has increased 40 percent while the budget was increased only 7 percent. With the great number of children who want to swim, more pool personnel is a necessity, and for activities other than swimming another instructor is needed to take care of the demand.

Improvements in facilities were made this summer under the supervision of the director, George Butler. The Kaley Foundation presented the town with an arts and crafts building. This is an area with a concrete floor, roof and two closets at one end for storage, provided with tables and benches. It was used extensively this summer. A great deal of painting was done by the summer personnel with help from the young people; more of the picnic area was cleared, poison ivy eradicated, and play equipment installed. A new softball diamond was constructed.

With two tennis courts at Keyes Field, more emphasis than ever was placed on tennis instruction. A tennis clinic was conducted by Stanley Gibson, chairman of the New England Public Parks Junior Tennis Program.

An innovation this summer was a class for women. They met once a week for such activities as tennis, swimming, judo and first aid.

Many local organizations have used the facilities of Keyes Field and are encouraged to do so.

The Arthur L. Keyes fund presented the town with two beautiful granite posts marking the entrance to Keyes Field.

We recommend that a committee be appointed to study the possibilities of having a full time recreation director for Milford or in cooperation with Amherst and Mont Vernon.

MRS. WILLIAM B. ROTCH, *Chairman*

Water Study

Warrant Article 18 of the 1969 Town Meeting Agenda read as follows:

To see if the Town will authorize the moderator to appoint a committee of five to investigate the feasibility of purchasing land for the multiple use reservoir, Site 16, on Tucker Brook, for water supply purposes, and report their findings to the Selectmen not later than September 1, 1969.

The vote was affirmative and a committee was appointed which consisted of the following men:

Francis E. Doyle, Chairman

Charles F. Curtis

Richard A. Currier

Kenneth A. McLeod

Robert B. Marden

The finding of the committee is that the purchase of land at Site 16 (Tucker Brook) for a multiple use reservoir is feasible but the committee does not believe that the town should purchase such land.

It is the recommendation of the committee that the Kokko and ABC wells, or equivalent, be put into service as quickly as possible and that land be purchased as part of a multiple use reservoir at Purgatory Brook rather than at Tucker Brook.

The Town of Milford is using water at a greater rate than it can be supplied by the Savage well thus necessitating the use of the South Street well as an additional source of supply. The Kokko and ABC wells together would have a safe yield of about 500 gallons per minute (750,000 gallons per day) which is the present capacity of the Savage well. Since the useable storage capacity of the town water tanks is about 1,100,000 gallons and the town is at times using up to 1,000,000 gallons per day the reserve is one day's use provided the tanks are full to start and no serious fires occur.

The committee feels that a substantial reservoir for the town water supply would be more dependable as a source of water for the future and would better serve the needs of the community particularly in view of the fact that additional well sites are scarce and expensive to buy and develop.

The proposed multiple-purpose reservoir at Tucker Brook is

calculated to have a safe yield of two million gallons of water per day. The committee feels that such a yield may be inadequate for the needs of the town by 1990 and therefore an investment in that site would be economically unsound.

The Purgatory Brook watershed development would furnish greater safe yields of water depending on the size of the impoundment as shown in Appendix A. The maximum development of Purgatory Brook site would probably serve the needs of the town in excess of 30 years at the anticipated rate of growth of Milford.

It should be noted here that the State of New Hampshire now requires treatment of all surface municipal water supplies and may soon require treatment of ground water supplies as well. Also some municipal wells have had to be abandoned because of the increase in iron content of water due to excessive pumping. The Whitman Howard report of several years ago indicated no suitable well sites north of the Souhegan River and very few south of the river. Test borings showed high iron content at many sites. Also wells are subject to contamination from road salt and studies are now being conducted by the U. S. Government to ascertain when and how this occurs. There is no guarantee as to the future quality, or quantity, of the well water now being used.

A Tucker Brook treatment plant could operate by gravity but water would have to be pumped into the present storage tanks. Water must be pumped from a Purgatory Brook site. However the natural storage would preclude the need for additional steel or concrete storage tanks and surface water would not be as corrosive as our present well water. Also the greater depth at the Purgatory Brook site would supply water of better quality. The fact that the impounded water at a Purgatory dam would extend beyond Milford town limits would not preclude construction.

A study of Appendix A shows that just the first step at Purgatory Brook would have a 75% greater safe yield than the Tucker Brook site at less cost to the town. A modular treatment plant could be constructed to allow future increases in water consumption.

Funds for land purchase must be available at time of acquisition but funds for dam and treatment facilities can be financed over a 50 year period at very low interest rates. In addition amortization of

funds borrowed under Public Law 566 may be delayed for ten years, interest free, if no water is used. Also the \$10,090 appropriated for the modifications to Tucker Brook dam need not be spent and the town can be released from its obligation if the Purgatory Brook site is selected.

It is important that if a decision is made to consider either multiple use reservoir it should be vigorously followed up because of limitations on availability of federal and state matching funds and the fact that Souhegan water shed projects have already received large allocations.

The population of Milford is increasing every year and the demand for town water is greater. A multiple use reservoir (part water supply and part flood control) would preclude additional wells and be of substantial benefit to Milford in furnishing adequate water for many years to come.

Fire Station Committee Report

The Fire Station Committee has submitted a warrant article to the Selectmen recommending that the present Fire Station be remodeled at an estimated cost of \$104,000. This will include widening and raising the doors, raising the ceiling approximately three (3) feet, adding a fourth bay where the present meeting room and kitchen areas are, relocating the hose tower, and providing meeting rooms, toilets and showers, Chief's Office, and additional storage space on the floor above. Their decision was reached after careful consideration of alternate sites, efficient utilization of existing town land and buildings, costs, and the best long term interests of the townspeople.

The present Fire Station Committee was appointed by Town Moderator David Hoadley after a public hearing held at the present Fire Station in July. Chairman is Stuart Horne. Other members appointed included Fred Lorden and John Burke from the previous committee, and new members George Charland, Wilbur Ashworth, George Corson, and Charles Mucciarone. Mr. Mucciarone resigned recently to accept a new position in Massachusetts and was replaced by Kendall Hawes.

The Committee explored all alternatives prior to reaching its decision. A map of the town was analyzed to evaluate potential locations. Plotting the approximate location of fires over the past three years revealed that approximately one-third of the calls were north of the Souhegan River, one third east of South Street, and one-third west of town. It was also found that our present Fire Department members live in this same approximate distribution.

Several routes to the outskirts of town were timed to estimate response times to fires in these sections. The locations of schools, nursing homes, and homes for the aged were noted, as well as concentration of older buildings with high fire risk. It was suggested that the Fire Station be located on Elm Street, as this is the direction of new growth in town, as well as the location of our major industrial plants. But the iron bridge on Elm Street is not rated to safely support the fire engines, thus adding perhaps three to five more precious minutes to calls across the river.

After considering all these factors, the Committee decided that the best location for a Fire Station was as near to the oval as possible.

With this goal in mind the Committee selected two alternatives, remodeling the existing Fire Station, and building a new Station on the town land on School Street presently utilized as a municipal parking lot.

The new station on the parking lot was ultimately rejected for several reasons, not the least of which is the cost to the taxpayer. In discussions with an architect it was determined that a new permanent station, using the least expensive methods of construction and today's estimated construction costs, would be between \$150,000. and \$160,000. for a 6500 square foot station. In addition to this, it is felt that the building at the corner of Middle and Putnam Streets presently housing Joe's Barber Shop and perhaps a portion of the land at School and Nashua Streets next to the Souhegan National Bank would have to be purchased to provide adequate space for the fire engines to respond to fires quickly and safely. Although no costs were obtained on either of these pieces of property, it is felt that they would add at least \$30,000. to the cost of the station, thus increasing its total cost to close to \$200,000.

Further investigation revealed that remodeling of the existing Fire Station would provide the Department with just as much space as in the proposed new station, 6500 square feet, at perhaps one-half the total cost of a new station plus land purchase for efficient egress.

The principal objections to the present station, and in fact the compelling reasons why a new station is needed are centered around lack of space. A look at the present station will quickly reveal that the trucks have perhaps two inches clearance on either side of the doors and not much more in headroom. There is very little room to work on the trucks or equipment. The heating and wiring are totally inadequate.

The Committee proposal includes all new wiring and zoned heating, as well as new and adequate plumbing. The present doors would be removed, steel supporting beams would be put in, and either one 36-foot wide door would be installed, or a combination of a 24-foot door and a 12-foot door, or three 12-foot doors. The present meeting room would be converted to a fourth bay with a 12-foot door. All doors would be 12-feet high. The ceilings would be raised approximately three feet. All the ground floor would be devoted to

the fire apparatus, storage space, and adequate work area. The hose tower would be relocated to a back corner. A stairway would be installed to the first floor (Nashua Street level), where showers and toilets, clothing storage, meeting rooms, and a Chief's Office would be provided. This area could be converted or enlarged at a later date should Milford need a permanent full time Fire Department.

After consideration of all information available to the Committee, it is felt that an investment of \$104,000. to remodel the present, structurally sound, Fire Station is in the best interests of the townspeople. This action assures the town of an adequate central fire station for many years to come, yet restricts the tax increase to a bare minimum.

Proposed Provisions for Zoned Areas

Residence A District

Residence A District is designed for single and two family residences, their accessory buildings and home occupations and professional use provided the outward appearance of the dwelling remains residential in nature. All dwellings must be set on frost free foundations.

A-1. Yard Requirements.

a. Each structure shall be set back at least 30 feet from the front lot line, or at such a distance to conform to the setback of existing buildings on adjacent property.

b. Each structure shall be at least 15 feet from side and rear property lines. In the case of a corner lot, the side distance shall be increased to 30 feet on the side bordering the street, lane or public way.

A-2. Uses acceptable by approval of Planning Board and Board of Adjustment, where such use will not be detrimental to existing property.

a. Recreation and community center buildings and grounds for games and sports, except if they are to be carried on primarily for gains.

b. Kindergartens and day nurseries.

c. Churches.

d. Public Utility use necessary for public welfare.

A-3. Uses specifically excluded.

a. Mobilehomes.

b. Dumps.

c. Junk yards.

Residence B District

Residence B District is primarily for residential use and accessory buildings related thereto. All yard requirements and acceptable uses of Residence A District shall also apply in Residence B District including multi-family dwellings such as apartment houses, provided such multi-family dwellings provide at least one and one-half off-street parking spaces for each dwelling unit and yard area equal to not less than 20% of the total lot area.

B-1. Acceptable uses by approval of the Planning Board and the Board of Adjustment where such use will not be detrimental to

a. Hospital and/or related facilities.
existing property.

- b. Schools.
- c. Funeral homes.
- B-2. Uses specifically excluded.
 - a. Mobilehome parks.
 - b. Dumps.
 - c. Junk yards.

Residence R District

Residence R District is primarily a residential-agricultural district. The uses set forth in Residence A District are also acceptable in Residence R District.

- R-1. Other uses also permitted in this district.
 - a. Hospital.
 - b. School.
 - c. Farm, agriculture or nursery use.
 - d. Mobilehome park according to the provisions of Article III.
 - e. Harvesting and/or processing of natural resources.
 - f. Motels.
 - g. Public utility use necessary for public welfare.
 - h. Recreational uses.
- R-2. Yard Requirements.

The same as set forth in Residence A District.

Commercial-Business District

- C-1. The following uses shall be permitted in this district.
 - a. Drug stores, shops, restaurants, and other retail and whole-sale businesses.
 - b. Garages, parking lots, and filling stations.
 - c. Professional offices and banks.
 - d. Theaters, halls, clubs and churches.
 - e. Newspaper and job printing.
 - f. Funeral homes.
 - g. Lodging and apartment houses, or motels, provided one and one-half off-street parking spaces are provided each unit.
 - h. Laundries and dry cleaning.
- C-2. Uses specifically excluded from this district.
 - a. Dumps.
 - b. Junk yards.
 - c. Mobilehomes.

Industrial District

- I-1. The following uses shall be permitted in this district.
 - a. Uses permitted in the business and Residence R District.
 - b. Light industrial and manufacturing.
 - c. Harvesting and/or processing of natural resources.
 - d. Recreational uses such as drive-in theater, bowling lanes, etc.

I-2. Yard Requirements.

Buildings may not occupy more than thirty (30) percent of the total lot area. Minimum setbacks as outlined in A-1.

I-3. Uses specifically excluded from this district.

- a. Animal reduction and related facilities. Tannery.
- b. Fertilizer manufacture.
- c. Smelting of ore or petroleum refinery.

Suggested Addition to the Zoning Ordinance

Article 1

General Provisions

1-3. Signs.

Signs shall be permitted in the districts according to the following provisions.

a. Industrial District Signs. Free standing billboard type signs are permitted provided the total sign area does not exceed two hundred (200) square feet per lot.

b. Commercial-Business District Signs. Free standing billboard type signs are permitted, if space on the lot permits, but may not exceed one hundred (100) square feet per lot.

c. Residential Districts. Not more than one sign per lot and not to exceed a one side area of three (3) square feet. Said sign must advertise products and/or services originating on the premises.

d. No sign in any district shall project over any street line.

e. All signs shall be constructed in such a way as not to endanger or obstruct vision on any street, highway or intersection.

f. All signs shall be maintained in good repair or removed at the expense of the owner.

g. Temporary signs such as those to advertise a seasonal event, political candidate or the like are permitted in all districts provided said sign is not erected more than three weeks prior to the event and is removed during the week following the event.

General Provisions include:

1-2 a. Non-conforming use.

A non-conforming use destroyed by fire or act of nature may be rebuilt to the same capacity as it existed before said act or fire. If the rebuilding has not commenced one year after the destroying act the property will revert to an acceptable and approved use for the district or zone wherein it is located.

Planning Board

The Planning Board has been meeting regularly during the past year on the first and third Thursday of each month in the Courtroom of the Milford Town Hall.

No major subdivision plans were presented during this past year, however, the New Hampshire General Court enacted a law requiring any new plan or deed, prior to recording at the County Registry of Deeds, be approved by the Planning Board.

The Board spent much of this past year working on the proposal to establish districts for the existing zoning ordinance and a map to illustrate graphically the boundaries of these districts. It is hoped that this will be but one step in the direction of planned patterns for the harmonious growth of our town. In the next year we should anticipate updating the existing subdivision regulations and the building code to keep abreast of modern trends in development. We should look for revisions of such a nature to encourage green space zoning in flood planes and other conservation areas. We should anticipate cluster type zoning-subdivision where the key is population density and not necessarily lot size. 1970 should be a busy year.

ROBERT T. WISNIEWSKI, *Chairman*

C. F. SCHENCK

ALFRED H. MEDLYN

BERNARD E. HALL

Emerson Park Committee

FINAL REPORT

The long planned Emerson Park between the Post Office and the river became a reality during the summer and autumn of 1969.

The area, about three quarters of an acre, was filled, graded, and walkways were constructed by the Souhegan Paving Corp., which

also set the park benches and the lamps. Stephen Chase of Bennington built a low granite wall running 160 feet along the river and circling around a stone patio at one end of the park. Mr. Chase also set the stone steps and the curbing which surrounds a sand pit area designed for small children. Owen P. Fisk was the electrical contractor, and E. P. Hallet Co. installed the drinking fountain and three water outlets. The Medlyn Monument Co. engraved the lettering on the large stone at the entrance to the park. Walter Lang of Lang's Colonial Gardens in Nashua planned and planted the trees, shrubbery, ground cover, bulbs, and the lawn area. One additional lamp is to be installed this spring as well as a granite plaque which will be added to the wall.

The total cost of the park was approximately \$12,300 which was somewhat less than the planned budget. The committee, on behalf of the town of Milford, received donations totalling approximately \$14,600 from many sources. Interest from the remaining funds will be used to replace or add to the planting from time to time, and to do any special maintenance work which may be needed to keep the park attractive.

In addition to the contributions listed in the 1968 Town Report, the following donations have been made: \$100.00 from Mr. Merritt R. Langdell; park benches from The Cabinet Press, Mr. Harland Holt, The Super Save Market, Louise Gale, Realtor, The Rotch-Ferguson Insurance Agency, and Plain and Fancy Gift Shop; seven pine trees from Mr. William Kokko; trash baskets from the Milford Lions Club; granite for the steps, curbing and patio, from the Barretto Granite Co.; wood chips for the planting by the Lorden Lumber Co.; and a millstone which forms a table at the end of the park from Mr. Theodore Langdell.

The committee is also grateful to the following townspeople who donated services during the year: Mr. Theodore Matson supplied fork lift work in transporting and placing stonework for the park. McKay and Wright Inc. also donated stone moving work and set the large boulder at the entrance in place. The Town Public Works department relocated two storm sewers and made the water connections at the hydrant. Mr. Mel K. Pfeffer supplied blueprint services. We

also acknowledge with thanks the professional guidance donated by Mr. William B.S. Leong A.I.P.

The many contributions of money, time, labor, and interest have made this a genuine community project. We look forward to the spring blooming of the many bulbs, and we hope that the park will be used and enjoyed by townspeople of all ages.

Respectfully submitted,

MILDRED W. HOADLEY, Chairman

Emerson Park Committee

Water Accounting Study

Pursuant to Article 30 of the 1969 Town Meeting, the committee appointed by the moderator submits its report:

Organizational Framework. The Committee recommends that since most of the town is served by the Water Department at the present time, to change to a Water District would serve no purpose other than to create a department that would operate as a separate business. Similar results can be obtained within the present framework with the Water Department being under the control of the Board of Selectmen, the operations being supervised by the Public Works Superintendent and the members of the Water Board serving in an advisory capacity to the Board of Selectmen.

Financial Reports:

The committee has discussed the bookkeeping system and auditing of the accounts with a certified public accountant and feel they are satisfactory. We recommend that the financial reports be drawn with the same outline as shown on pages 53, 54 and 55 of the 1967 Town Report, namely the Water Department Operations and Water Department Statistics and also to include a report as printed on Page 63 of the 1968 Town Report showing the subscribers and accounts receivable, we feel these reports show the operations in a simplified form. We recommend the comparative balance sheets showing assets, liabilities and reserves be omitted from future Town Reports as they are not necessary for the normal operation of the department and tend to confuse the public; we do however, recommend that the balance sheets be continued annually by an accountant as they may prove useful from an information standpoint at some future date.

Respectfully submitted,
OWEN FISK, Chairman

Garbage	55
Highway Maintenance	58
Oiling	57
Parks and Playgrounds	53
Public Works Narrative Reports	45
Sidewalks	57
Snow Removal	55
Town Buildings	52
Water Department	61
Sewers	54
Building Inspection	54

To the Honorable Board of Selectmen:

Gentlemen:

I hereby submit the annual report concerning the activities of the Milford Public Works Department for the year nineteen hundred and sixty-nine. Contained herein is detailed information outlining the progress and accomplishments of the Milford Public Works Department.

The contents of this report represent the first full twelve month period of my responsibilities as your superintendent. The wide range and multitude of problems existing within this community has indeed proved a challenge. A sincere effort has been made to meet these problems with fairness to all and with reasonable and constructive solutions.

I wish to take this opportunity to thank the Board of Selectmen and the many citizens of Milford who have so understandingly cooperated with me in the discharge of those duties.

Public Works Administration

Administration and Financial Control of all Public Works functions is carried out by this Department. This office provides information, maintains appropriate records and administers a majority of the Town's functions. Due to the rapid growth in population of the Town, the work load in this area continues to increase.

Building Inspection

Report on the Building Inspection Division of the Public Works.

Milford, like so many other towns adjacent to Nashua and Manchester, has felt the population explosion. More than 138 building applications have been filed and processed this year, representing an estimated investment of more than \$1,000,000.

The breakdown is as follows:

Homes	\$ 415,000
Garages	11,085
Professional Building	35,000
Storage Sheds	7,130
Additions and Alterations	73,718

Stores	88,000
Apartments	198,000
Industrial	56,800
Offices	15,000
Trailers	112,645
Churches	75,000

Total	\$1,087,378

Literature is for the asking at the Public Works office, covering the Ordinances on Building and Sewerage. Application forms for Septic Tank installations, new buildings, additions or alterations, Mobile Parks and the State and Town rules that cover their operation.

The Building Inspector wishes to thank the Selectmen, and citizens for their cooperation and the Public Works Dept. and their personnel for their assistance in conducting the operations of this Dept.

HAROLD S. BROWN, *Building Inspector*

Cemetery Department

The Town of Milford's five cemeteries are in excellent condition, having received outstanding care and maintenance throughout the year. Utilizing appropriated funds, a new and modern storage facility and work-in shop has been constructed in the north section of Riverside Cemetery. This building 20 ft. by 24 ft. of cement block on concrete foundations contains office space, tool storage space, a working area and will accommodate one truck, should the need arise.

Through the use of funds made available from the Lot Fund, 1600 feet of gravel drives in the south area have received a two-inch surface coat of bituminous concrete. Additionally, the roof of the existing Tomb has been sealed and waterproofed, paving of the remaining access lanes should be continued through to completion in annual increments. Considerable work has been done in the development of new Lots in the Northeast section. This is a continuing program.

Highway Maintenance and Related Activities

General Maintenance, repair and improvement projects in the area of Roads and Streets are reported in this section, funds being made available through Highway Appropriations. Major items in this category are: Road and Street repairs, including bridges, culverts, drainage ditches, traffic signs, traffic lanes, meters and public parking lots.

During the calendar year 1969, a concerted effort has been made to arrest deterioration, maintain cleanliness and to improve where possible the street and highway system as it exists. It should be recognized that the volume of necessary and desirable highway improvement projects is so great that within the funds available, only minimum repairs and requirements are being met.

The new Mobile Street Sweeper was delivered prior to spring cleaning and utilized throughout the Town for this purpose. Throughout the summer a three-day per week schedule of cleaning was maintained, covering the intown area and main thoroughfares. Traffic and parking lanes throughout the Town were painted and an effort made to improve streets and route signs. A number of catchbasins, drainage ditches and culverts have been constructed at various locations and additional granite curbing installed.

Highway Oiling

Surfacing and resurfacing of town roads is accomplished through Highway Oiling funds. In determining priorities for treatment within the available funds, it was felt that those roads presently having gravel surface only and requiring constant expensive maintenance work should be treated wherever possible. The following roads and streets have received their initial treatment; Riverlea Road, McLeod Road, Adams Street, Johnson Street, Olive Street (one side), Richardson Road, Burns Road, Mooreland Street Ext. and Walmsley Circle. Additional work within this program consisted of Powers Street where a three-inch layer of mixed-in-place surface was applied and seal-coated. The reseal of Savage Road and portions of Federal Hill Road was also accomplished.

It is recommended that the Town embark on a permanent program of Oil Treatment to effectively seal one-fourth of the approximately 70

miles of road each year. An estimated cost of this program would be \$14,000 annually.

Parks and Playgrounds

Milford's Parks and Playgrounds are composed of Keyes Field, Memorial Park, Oval, Shepard Park, Dr. Burns Park and Hartshorn Park, with the 1969 addition of Emerson Park. Recreational programs are promoted and supervised by the Parks and Playgrounds Committee. Maintenance of grounds and structures is provided by the Public Works Department. At Keyes Field during 1969 a soft ball field was constructed, the Pool repainted, joints caulked and mechanical repairs made. Partial painting of the bath house, both interior and exterior was achieved by Pool attendants. Several large trees and a considerable amount of debris were removed from the Souhegan River to arrest a serious erosion condition adjacent to the new recreational shelter. The river bank is being stabilized with waste granite donated by the Barretto Granite Corp.

In addition to general maintenance of all Park areas, trees at the Oval and Shepard Park have been pruned and sprayed. A new drinking fountain was installed at the Oval.

Snow Removal

Snow plowing and snow removal is accomplished through appropriated funds. Plowing, sanding and salting of road, streets and walks and the removal of snow in Union Square and the main thoroughfares, make up this item.

As in the winter of 1968-69 a major effort has been made to effectively meet this obligation. The Town of Milford may be justly proud of its employees who have given of their time and talents to the end that safe and uninterrupted traffic flow both foot and vehicle may be maintained at all times.

Town Road Aid

Funds jointly provided by the Town and State of N. H. are utilized for improvements to and reconstruction of certain roads and streets. Funds available under TRA-A were utilized in 1969 for the

completion and resurfacing of Purgatory Road and the reconstruction of Jennison Road.

Purgatory Road has received a three-inch mixed-in-place surface treatment, guard rail posts installed and additional slope material added. Funds are available and will be utilized to apply Asphalt seal coating and cable in the Spring of 1970.

Jennison Road, from Meadow Brook to the residence of John Ulricson, a distance of approximately three quarters of a mile has been completely reconstructed. New lines and grades were established to improve driver vision and aid in snow removal. A permanent drainage system installed and a twenty-seven foot wide mixed-in-place surface applied. Funds are available for seal coating of this road which will be accomplished in the spring of 1970.

Information Booth

This facility was opened on July 1 and continued to provide a valuable service to business, visitors and the traveling public through Labor Day week-end. A total of 1063 traveled from 28 states, Canada, etc. benefited from this service.

Considerable difficulty was encountered in obtaining a competent attendant within the funds available. It was therefore decided to operate the facility with Public Works employees on a shift basis, a very satisfactory operation resulting.

The existing Booth, having outlived its useful life, is now being utilized elsewhere. It is recommended that a new, somewhat larger and more inviting structure be procured for the 1970 season.

Garbage Removal

The collection of garbage within specified areas is accomplished through the services of a private contractor. The contract for this service expires in 1971 at which time consideration should be given to the expansion of this service or its elimination in favor of individual responsibility for such disposal.

Town Dump

This facility located off the North River Road, operated by the Town of Milford for use by its citizens in disposing of solid wastes

has endured another year of controversial, somewhat hectic, yet successful operation.

Among the several problems encountered has been the permanent failure of the Town's two bulldozers, both of whom have outlived their useful life, are beyond economical repair and have been retired with no replacement provided. The method of operating has been revised to eliminate the use of bulldozers in pushing over debris as in the past. Material (sand, gravel) available at the site has been transported topside and utilized for cover. This operation has through the cooperation of the citizenry proven very successful. Sanitary conditions are much improved and while smoke and fly ash are still in existence, this has been reduced through controlled burning and sand covering.

The solution of Milford's disposal problem definitely lies within this area. There exists at this site 10.6 acres of land, only 5 of which are consumed through past use. Should this area be properly utilized through a combination incinerator-landfill type of operation, many years of economical easy access use free of air pollution may be realized. It is recommended that funds requested elsewhere in this report be provided for initial action in establishing a firm program at this site.

Water Department

The Milford Water Department has completed another year of growth and development. Some four thousand feet of additional water mains have been installed, mainly at Hilton Homes with a connection to the Ryder development, an extension of Crosby Street, forming a loop connecting at Elm Street and West Street.

General maintenance was performed throughout the year which included six water breaks in Mains and numerous failures in services. Six-inch Gate Valves were installed at High, Franklin and Powers Street and two additional hydrants were installed in existing lines. At the South Street Pumping Station minor roof repairs were made and the filter system received new filter sand.

An investigation of the Mayflower Hill storage tank was made by an engineering specialist in this field, specifications prepared and a

contract awarded for painting and repairs. The final coat of paint awaits favorable weather in the Spring of 1970.

Sidewalk Construction

Sidewalk Construction funds made available in 1969 have been utilized to resurface with bituminous concrete over one thousand linear feet of sidewalks. Those walks in the most deteriorated condition were selected for a start on this program and include Cottage Street, High Street and Franklin Street. Funds from this appropriation were also used for tree stump removal on Elm Street and the installation of sidewalk curbing on Souhegan Street. Additionally, upon completion of renovations at the McLellan's Store in Union Square, that portion of broken concrete sidewalk has been replaced with bituminous concrete surfacing.

There remains approximately five miles of sidewalks in need of rehabilitation and/or complete reconstruction. A substantial appropriation for the accomplishment of this work should be made.

SUMMARY

The pattern of heavier-than-normal snowfall that became established in our area 14 years ago continued through 1969, with almost 30 inches more than the 70-year average of 68 inches. Most of the year's total was concentrated into two very snowy months, February and December, with three of the storms — Feb. 9-10, Feb. 24-27, and Dec. 26 — ranking among the severest on record here. On the other hand, the snow season ended unusually early in March, and did not begin in earnest until mid-December, two to three weeks later than average.

Respectfully submitted,

ANDREW E. ROTHOVIVS

Communications Center

To the Honorable Board of Selectmen:

I herewith submit my annual report of the activities of the Milford Communications Center from January 1, 1969, through December 31, 1969.

In July, 1969, the new State Police radio on high frequency was installed which gives us no interference, better and faster communication with State Police. In September, 1969, the auxiliary fire radio was installed. A partial covering for Wilton Police, in regard to communication, started in March of 1969.

Another new radio receiver installed this past year was the Manchester, N. H., Police Department radio, which is only a receiver on their frequency. This installation was at no cost to the Communications Center.

The following is a list of the activities of the Milford Communications Center for the Milford Police Department, January 1, 1969, through December 31, 1969.

Dispatching police cruisers on calls	3383
Assistance to cruisers	2740
Dispatch police to accidents	129
Aid and assistance to other departments	827
Complaints taken at Center and relayed to police	392
Telephone calls received from Milford	15552
Emergency calls	14
Information given by Center	1999
All outgoing calls pertaining to Milford, only	14325
Resuscitator calls	6
Bike plates (approx.)	255
Dump permits (approx.)	205

The following is a list of the activities of the Milford Communications Center for the Milford Fire Department, January 1, 1969, through December 31, 1969:

Calls received for the fire department	475
--	-----

Aid to the fire dept. (outgoing calls)	607
Information taken for fire department	93
Fire permits issued	837

The fire alarm is tested at 11:45 A.M. every day, except Sundays and holidays – rung at the Center. Gamewell unit also tested at this time as to milliamperes and voltage.

The Civil Defense test alert is rung for Milford and Amherst the first Saturday of every month at 11 A.M., except holidays.

The following is the number and type of fire alarms rung from the Center, for Milford Fire Department, upon receipt of a call for the dispatch of fire equipment:

Dwelling	28
Business	11
Brush and Grass	27
Car or truck	9
Mutual aid	18

The following is a list of the activities of the Milford Communications Center for the Town of Amherst, N.H., January 1, 1969, through December 31, 1969:

Telephone calls pertaining to Amherst	2345
Accidents	64
Calls of complaints	65
All outgoing calls by phone, police and fire	2870
Information pertaining to Amherst	279
Assistance to police and fire	899
Emergency calls	1
House checks	53

The following is the number and type of fire alarms rung from the Center, for the Amherst Fire Department, upon receipt of a call for the dispatch of fire equipment:

Dwelling	18
Brush	16
Car or truck	8
Mutual aid	9

The following is a list of the activities of the Milford Communications Center for the Town of Mont Vernon, N. H., January 1, 1969, through December 31, 1969:

All incoming calls for Mont Vernon	346
All outgoing calls to Mont Vernon	256
Dispatch police to accidents	16
Complaints from Mont Vernon	12

The following is a list of the number and type of fire alarms rung from the Center, for the Mont Vernon Fire Department, upon receipt of a call for the dispatch of fire equipment:

Fire	4
Mutual aid	5

The Mont Vernon whistle (their fire alarm) is tested every day at 12:00 noon, except Sundays and Federal holidays, and then the dispatcher calls Mont Vernon to see if alarm is in working condition.

The following is a partial list of activities of the Milford Communications Center for the Wilton Police Department:

Telephone calls from Wilton	771
Assistance requested	291
Aid rendered, (outgoing calls, on phone, and to cruiser)	788

Our thanks go to the officials and citizens of Milford, Amherst and Mont Vernon, and also the surrounding towns for their cooperation with the Communications Center. I would also like to extend my "thanks" to the regular and substitute personnel at the Center for their cooperation this past year.

Manual Force:

A Chief and two deputy chiefs make up the Board of Firewards. Four individual companies are headed up by a Captain and a Lieutenant. Total manpower of the department is 47 men.

Company Drills:

Each company is drilled once monthly. In good weather, drills are held outside under actual conditions. When conditions do not permit outside drilling, blackboard drills are held of hazardous conditions, films shown, use and care of entry equipment gone over and general use of all fire fighting equipment studied.

All company officers meet once a month with the Board of firewards to discuss any problems, plan drills and to promote quicker and safer firefighting procedures.

Manpower may or may not be a serious factor of operations. Many men work out of town and this has a bearing on daytime fires. Other towns have been hampered seriously by this element. As yet we do not

have a serious problem but manpower availability will in the future years determine when we need permanent men in the department.

Engine No. 1 is now 21 years old. Although in as good condition as can be maintained and operating efficiently, consideration must be given to replace this piece in the near future.

The fire department is grateful for the excellent cooperation and assistance given us by the Milford police department. The communications center has proven itself many times for the fine duties they perform and they are a vital part of departments charged with the protection of lives and property. Cooperation of the public works department, public service company, CD director and state fire marshal's office is also greatly appreciated.

We thank the 44 firemen for their interest and cooperation in making the Milford Fire Department the efficient and capable department that it is.

Respectfully submitted,
ROLAND F. SPRAGUE
DOMINIC CALVETTI
ARTHUR L. DUTTON

May I take this opportunity to thank the men of the Milford Fire Department for their cooperation while acting as their chief for the past 8 years. We have been through many serious moments together and I hope you will give your next chief the same fine cooperation you have given me and that you continue to give the town the same fine service and protection you are capable of.

Very truly yours,
ROLAND F. SPRAGUE, *Chief*

Fire Warden's Report

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

Fire Permit

A *fire permit* is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be *prior to 9:00 a.m. and after 5:00 p. m.*

Exceptions

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

Penalties

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

Fires reported — State	453
Fires reported — District	95

ROLAND F. SPRAGUE, Forest Fire Warden
WINTHROP H. HANNAFORD, District Chief

Police Department

To the Honorable Board of Selectmen:

I herewith submit my 13th annual report of the activities of the Milford Police Department from January 1, 1969 through December 31, 1969.

The regular officers of the department are as follows along with their length of service:

Sgt. Harold Rand	4 years
Officer William Banks	3 years
Officer Walter Johnstone	2½ years
Officer George Covey	2 years

During the past year Officer Harold Rand was promoted to the rank of Sergeant. He is responding to his new and added responsibilities in a very satisfactory manner and his primary function is that of night supervisor.

Although the department was authorized to add one more full-time officer during the 1969 Town Meeting, we were unable to accomplish this. A man was hired during the month of July but resigned a month and a half later to accept better paying employment. The vacancy has not been filled yet. Special officers have been called upon to try to fill the gap but they are unable to work the necessary hours for an adequate patrol system.

Our Police Dog — Nikki — has now completed one year of service with the department. During that year he has flushed burglars from buildings, brought burglars out of the woods, discovered marijuana leading to the arrest and conviction of the possessor, brought displays of violence to calmness and, I believe, discouraged night criminal activities in our community. His handler, Officer "Bill" Banks has done an

outstanding job with his constant training program and his care for the dog. During the year he has demonstrated the dog before various civic organizations and schools a total of seven times.

We received our 1969 Chevrolet Police Cruiser during May 1969. It is fully equipped with all of the necessary emergency equipment and has performed most satisfactory.

During 1969 Milford seemed to be outstanding in the State as a community with a drug problem. I don't believe that we have any worse problem than other communities of its size. We do, however, recognize that we have drugs in the community and we admit it and have been trying to do something about the problem. Too many communities deny that they have a problem and try to brush it under the rug. Controversy exists as to whether some of the drugs are harmful or not; nevertheless they are against the law and our job of enforcement is clear -- it is unlawful to be in their presence or to have them in ones possession. I feel that educational programs to both the youth and the parents will minimize the use of drugs.

MOTOR VEHICLE INFORMATION

Auto accidents reported with over \$50 damage resulting	277
Persons injured in auto accidents	66
Persons killed in auto accidents	2

During 1969 the police department warned 859 motorists for driving infractions and issued 19 written warnings to motorists to make immediate repairs to the vehicles they were operating because they were unsafe to have on our highways. Seven letters were written to the Division of Motor Vehicles recommending suspension of licenses. Twenty-three hundred seventy eight tickets were issued for violations of the Parking Meter Ordinances. One hundred seventy two tickets were issued for parking violations other than Parking Meters.

The following is a list of motor vehicle violations which were brought before the Milford District Court by the police department during 1969 with a comparison of the previous two years.

	1967	1968	1969
Allowing an unlicensed person			
to operate a motor vehicle	1	3	5
Disobeying a police officer	5	7	2

Failure to stop at a railroad crossing	1	1	1
Operating a motor vehicle with unsafe tires	56	23	52
Operating a motor vehicle without a license	2	11	15
Yellow line violation	40	39	28
Operating an unregistered motor vehicle	3	4	5
Stop sign violations	6	7	12
Operating a motor vehicle without displaying headlights after dark	1	1	2
Operating a motor vehicle with a defective muffler	7	6	5
Reckless driving	3	5	4
Leaving the scene of an accident	1	7	3
Operating a motor vehicle after license has been suspended	5	1	2
Operating an uninspected motor vehicle	4	3	3
Failure to yield right-of-way	2	3	2
Misuse of registration plates	1	3	1
Failure to answer a summons	1	1	4
Unreasonable Speed	56	106	85

	1967	1968	1969
Driving while intoxicated	21	19	17
Taking auto without owner's consent	5	2	2
Operating motor vehicle after license had been revoked for failure to show proof of financial responsibility	0	3	3
Operating motor vehicle after license had been revoked	0	1	3
Failure to keep right	0	2	1
Rotary traffic violation	0	1	1
Overloaded motor vehicle	0	0	1
Operating motor vehicle without registration on person	0	1	0
Operating motor vehicle with inadequate brakes	0	0	1
Operating motorcycle without face protection	0	1	1
Operating motorcycle without license	0	0	2
Leaving the scene with death resulting	0	0	1

Operating heavy truck without a commercial license	0	0	3
Operating motor vehicle without corrective lenses	0	0	2

The following is a list of Criminal complaints brought before the Milford District Court during 1969 by the police department with a comparison of the two previous years.

	1967	1968	1969
Assault (not aggravated)	17	12	8
Burglary	4	19	1
Drunk	11	9	6
Larceny	2	1	4
Larceny by check	2	6	13
Disturbing Peace	0	0	2
Failure to comply with dog order	0	2	0
Being in the presence of a controlled drug	0	0	3
Being in possession of a controlled drug	0	0	5
Fugitive from justice	0	0	1
Trespassing	0	0	1
Trespassing stock	0	0	1
Disorderly person	3	6	7
Disorderly conduct	3	2	1
Giving alcoholic beverage to a minor	0	1	1
Defrauding Innkeeper	0	0	1
Unlawful possession of beer by a minor	0	0	3

JUVENILE ACTIVITIES

A total of one hundred and thirty-four juveniles were investigated by this department with nineteen being brought before juvenile court. These partitions alledged: two for receiving stolen property, eight for burglary, two for wayward, disobedient and uncontrollable, one for taking an auto without authority, one for possession of a controlled narcotic, one for being in the presence of a controlled narcotic, two for unlawful possession of beer, one for larceny and one for neglect.

The following is a list of activities and services rendered by this department with a comparison of the two previous years.

	1967	1968	1969
Aid at fires	32	59	49
Burglary investigations	35	34	42
Burglar alarms answered	48	32	40
Complaints received	1332	1268	1061
Deaths investigated	4	3	2
Doors found unlocked	370	900	638
Business night lights out	94	197	45
Dogs struck by autos	26	35	9
Stray dogs picked up	42	45	50
Dead dogs picked up	10	8	8
Street lights out	10	48	49
Missing persons	27	20	13
Children returned to parents	3	4	4
Persons held in lock-up	174	179	105
Road hazards reported	57	52	68
Suppression of disturbances	62	72	31
Vacant house checks	100	380	375
Resuscitator calls	11	4	15
Escorts	229	218	331
False fire alarms investigated	6	1	4
Larceny investigations	52	79	63
Suspicious persons checked	1950	2309	2520
Cruiser Mileage	62083	87818	86669

POLICE DEPARTMENT FINANCIAL STATEMENT — 1969

Appropriation	\$57,892.08
Expended	56,572.20
	<hr/>
Balance	\$ 1,319.88
Expenditures:	
Salaries	\$46,844.76

Supplies	833.34
Telephone	589.38
Training of Personnel	76.00
Paid Mileage	72.70

In conclusion, I wish to thank the Board of Selectmen for their cooperation throughout the year. The courtesies extended to me by all branches of Town Government has been and is appreciated.

Respectfully submitted,

DUANE B. ROCKWELL, Chief of Police

WADLEIGH MEMORIAL LIBRARY

Report of Librarian

The year of 1969 marked the beginning of a second hundred years of library service to the people of Milford. Although there is no new record high in circulation to shout about for the past year, there was an increase in services and the use of library tools which proved the library's importance to the public.

Included in the more-than 1200 books added to the library shelves, were books presented by the following individuals and groups:

Mrs. Charles Lincoln, Mrs. Howard Russell, Mrs. Campbell Bosson, Mrs. Barbara Wilson, The Milford Garden Club, The Jaycees, Mrs. Salvatore Grasso, Mrs. Doris Haskell, Mrs. Armstrong Hunter, The Hunter Press, Miss Bernice Reed, Mr. Edward Thane, Mr. Robert Carlson, Mr. Donald Stetson, Mrs. Horace Brown, Mrs. Frances Muir, Mr. James Cleveland, The R. C. A. Corporation, The Milford Alcoholics Anonymous and N. H. State Aid. A subscription to the National Wildlife Magazine was presented by Mr. Orlo Allen.

We found, in 1969, that more students and patrons used reference materials more than in other years. Much time was spent on answering reference requests by phone.

The State Library provides books and other materials not available in our collection. This assures the library user of assistance in special subject areas.

The addition of phone books, for some N. E. cities as well as N. Y. City, proved of great service to a number of people.

More teachers brought their classes to the library; some for selecting books for class-room collections while others came for a story or instructions in the use of the library for small children. The Special Classes, Kindergartens and Head Start were also entertained.

Near the close of the year a set of the Popular Mechanics Do-it-Yourself Encyclopedia was purchased. It is anticipated that this will be of great value to both men and women because of its wealth of ideas for everyone.

Events Especially for Adults

National Library Week is observed as a means of encouraging more people to use the library and its resources. There are always special displays to emphasize different fields of interest for all. This year Mrs. Richardson arranged an eye-catching exhibit of objects and pictures which she brought home from the Virgin Islands. A calendar was the background for pointing out famous authors who were born in the month of April. This was for the purpose of reading or re-reading titles by these writers. The Children's Room was enhanced by a collection of character dolls loaned by the Enchanted Dollhouse in Hollis. A Book Sale which has become popular was again a part of the 1969 observance .

The R. C. A. Corporation enlarged the record collection by another generous gift of recordings.

The senior citizens residing in Rest and Nursing Homes have book service every two weeks. These books are selected by the librarians and delivered by the generosity of the Rebekah Lodge; a community service which is much appreciated. We are grateful to the Lodge for their assistance in this form of library service.

Activities for Children and Schools

The Summer Reading Club was an exciting part of the Year's activities under the name of "Spaceship to the Moon" which was planned to coincide with the U. S. Space Program to the Moon in July. A "moon" was the center of the bulletin Board and space circles were placed around it. As the children read, they progressed by individual "spaceships" from earth to the "moon" and back. A well-attended party, including a film on space, climaxed the program in August.

Children's Book Week in the fall is a high point for the Children's Department. This is the time when, nationally, an emphasis is made to present the "Wonderful World of Children's Books" which this past year was programed under the theme "Book Power."

The effort at this library takes the form of an Open House for all children in the Elementary Schools. In advance of the Week, the librarians prepare reviews of the new books for the teachers to read to the children. Then during Book Week the children come to inspect

the collection of new books, to make their own selections for the end of the week when the books are ready for circulation.

The winter series of Film Programs were again a part of the services to children.

In addition to the foregoing activities and services provided for the public, the library staff performed a number of time-consuming tasks this past year.

Weeding books, no longer of active use, and preparing them for book sales; rearranging the growing record collection to make it more useful to patrons, and making more room for new books and materials were some of the efforts made to increase the effective and functional operation of this library.

All members of the Library Staff attended and took part in some of the meetings, workshops and conferences held in N. H. in 1969. Mrs. Miriam Carpenter and Mrs. Leona Thibodeau attended a Library Techniques course in the spring.

We wish to express deep appreciation to all those interested people who have contributed to better Library Service by their gifts of books, paper backs, magazines and other non-book materials.

I wish to express my personal appreciation to all my Staff, Trustees, Mrs. Hagar and other friends for their constant cooperation and encouragement.

As we move into a new decade, it is hoped that our reading public will think of their library as providing, not the three Rs but, the three Es – Education, Enlightenment and Entertainment.

Respectfully,

ALICE E. AMES, Librarian

Library Trustees

The Wadleigh Memorial Library became a Service Center in 1969.

In the affiliated structure of New Hampshire libraries, the State is divided into four districts. Each district designates certain libraries (the larger ones) as Service Center libraries, simply to serve the smaller libraries around it. The trustees feel that this function is important to the continuing growth and development of our library as well as of the smaller libraries. The Wadleigh Library can be useful in this capacity with its moderately sized reference collection, records, picture file, microfilm viewer, Worcester collection of New Hampshire town histories, large print books, general collection and staff.

We are still feeling our way. We are, at present, sending quarterly lists of new books to the libraries in the area, librarians of surrounding towns are using library tools such as the Standard Catalog, Books in Print, etc. and there have been reference questions by phone and in person.

We have received a State grant-in-aid which has been used for books for the general collection. In 1970 the grant-in-aid must be used for a specified project planned by us and by the affiliated libraries and must be approved by the New Hampshire Library Commission. We will meet with the librarians and trustees involved to determine our future course. Together we stand on a more solid base.

Through the Emerson Trust Fund we co-sponsored the Dartmouth Glee Club concert and were able to purchase the extraordinary book on Andrew Wyeth to add to our growing collection of art books.

The trustees have adopted a written personal policy which clarifies and brings together guidelines pertaining to vacations, holidays, retirement, sick leave, etc. previously only referred to in minutes of meetings.

We have undertaken some permanent planting of low maintenance flowering shrubs in front of the library with income from the Tarbell Trust Fund. We hope to continue the plan in the future.

Thanks to the interest and cooperation of so many people, including the Milford Cabinet, the library continues to be a live place.

We welcome suggestions and constructive criticism and look forward to many years of service to a wide variety of interests.

Town Auditors

We certify that we have examined the items, accounts and vouchers of the following departments for the fiscal year ending December 31, 1969, and, to the best of our knowledge and belief, they are correct: Town Treasurer, Town Clerk, Tax Collector, Public Works, Clerk of Board of Selectmen, Treasurer — Milford Free Library, Clerk of District Court, Overseer of Public Welfare, Treasurer — Trustees of Trust Funds.

Fire insurance policies on town property were examined and found to be in force.

Surety bonds on the several Town Officers were examined and found to be in force.

The securities in the custody of the Trustees of Trust Funds were examined and found to be in proper order.

MARGARET McCORMACK,
ALLEN WHITE,

Auditors

Synopsis of Town Meeting

March 11, 1969

Town Meeting at the West Street Area School was opened at 2:00 o'clock P. M. by the Moderator for voting on Town and School Officers and questions of Beano, Zoning Ordinance, Building Code Revisions and Town Manager Plan. First man voter, Edward Thane and first woman voter, Marjorie Bernasconi. Motion to close the polls at 8:30 P. M. was made by Ernest Barrett, seconded by Richard D'Amato, so-voted. Last voter, Janice Clermont.

Election officers present: Moderator, David A. Hoadley; Assistant Moderator, Bart Prestipino; Town Clerk, Scott E. Gangloff; Supervisors of the Checklists, Samuel Palmer, Shirley Ethridge and Lester Perham; Ballot Clerks, Flora Doucet, Catherine Richardson, Hazel Adams, Florence Morell, Edna Silva and Norma Pelchat.

Business meeting began at 6:30 o'clock P. M. Reading of the warrant was omitted.

Present for the meeting were the Board of Selectmen, Joseph M. Silva, Chairman, Salvatore P. Grasso and Charles F. Sullivan, Jr.; Deputy Town Clerk, Mrs. Lura H. Seavey; Public Works Superintendent, James N. Waldron; and Chairman of the Budget Committee, Ernest L. Barrett. Boy Scouts from Milford Troop No. 407 led the meeting in saluting the flag. Prayer was offered by Reverend Craig H. Richards, Pastor, First Congregational Church.

Town Moderator, Mr. Hoadley, announced this meeting was the 176th Annual Town Meeting of the Town of Milford. He stated No. 1 That the Budget Committee recommended separating the voters from the visitors at this meeting. It was decided not to do this. All non-voters were asked to sit in the back section. No. 2 The Moderator asked that all who spoke use the microphone, and also identify themselves. No. 3 If the Moderator rules on action of motion, and if seven people disputed the vote, we would then have a standing vote, and he hoped it was not necessary to have a ballot vote. No. 4 He stated that we would act on motion of the Budget Committee.

It was ruled that special permission be given Town Counsel, James Enright; Superintendent of Public Works, James N. Waldron; and Architect, Paul Lieneck, for the Town Hall Study Committee to speak.

The Jaycees volunteered to count tally in the event of division of assembly.

Article No.1: Voting for Town and School officers.

Article No. 2: This was taken up under Article 5.

Article No. 3: Bart Prestipino moved, and it was seconded by Joseph Silva, to accept reports as printed in the Town Report.

Article No. 4: Selectman Grasso moved, and it was seconded, and voted in the affirmative to authorize the Selectmen to borrow money in anticipation of Taxes, if necessary, as provided by the law of 1907.

Article No. 5: The following sums of money were raised and appropriated:

Election and Registration	\$ 970 00
District Court Expenses	6,265 00
Public Works Administration	18,482 00
Town Hall and Other Building Expenses	12,250 00
Town Office Expenses	17,375 00
Town Officers Salaries	9,650 00

Building Ordinance	1,650 00
Civil Defense	2,265 00
Fire Department	22,982 00
Hydrant Rental:	
Milford Water Dept.	11,280 00
Wilton Water Dept.	180 00
Police Department	57,892 08
Police Cruiser (Trade-in)	1,003 00
Communications Center	21,301 00
Garbage Collection	5,000 00
Health Department	1,325 00
Sewer Maintenance	3,000 00
Town Dump	8,600 00
Vital Statistics	200 00
Highway Maintenance	30,450 00
Oiling	7,000 00
Snow Removal	40,000 00
Street Lighting	14,474 40
Town Road Aid Apportionment "A"	1,157 82
Libraries	13,459 55
Old-Age Assistance	14,000 00
Town Poor	3,800 00
Memorial Day	450 00
Parks and Playgrounds	14,000 00
Cemeteries	12,500 00
Planning Board	240 00
Information Booth	450 00
Group Health Insurance	3,200 00
Damages and Legal Expenses	1,000 00
Employee's Retirement Insurance	1,500 00
Insurance	13,032 00
Police Pension	1,500 00
Social Security	7,000 00
Tax Map	300 00
Interest: Long Term Notes	
Other than Water	1,571 54
Water Department	3,093 44
Interest: Temporary Loans	7,000 00
Sidewalk Construction	2,000 00
Indebtedness, Water	15,700 00
Indebtedness, Other than Water	10,000 00
County Taxes	74,131 39

Article No. 6: Beano voted by ballot. Beano: Yes 797; No 248.

Article No. 7: Town Manager Plan of Government as provided in Chapter 37 of the Revised Statutes Annotated voted by ballot. Yes 242 No 757.

The Budget Committee felt that the existing position of the Superintendent of Public Works includes the majority of the responsibilities which apply to the Town Manager. Having competent Department Heads in other Departments who are doing an efficient job, they did not favor this article.

Article No. 8: Adoption of the Zoning Ordinance as proposed by the Planning Board for this Town voted by ballot. Yes 538 No 434.

Article No. 9: Revisions to the Building Code as proposed by the Planning Board be approved for this Town voted by ballot. Yes 575 No 369.

The Budget Committee moved and it was seconded that Article 27, 28 and 22 be taken up in this order before action is taken on Article 10. Mr.

Hoadley, Town Moderator, stated this seemed advisable to consider these articles at this time.

Article 27: Richard D'Amato, Chairman of the Town Hall Study Committee, moved and it was seconded, that the sum of \$296,300.00 be raised and appropriated for the remodeling of the Town Hall, Construction of Fire Station and purchase of Fitton Land, said funds to be raised by the Issuance of Bonds, or Notes of the town, the Board of Selectmen to have the authority to fix the date, maturities, denominations, interest rate or discount rate, plans of payment, form and other details of Bonds or Notes and to provide for the sale thereof all in accordance with the terms and provisions of the Municipal Finance Act Chapter 33, New Hampshire revised statutes annotated 1955 as amended.

Mr. D'Amato stated the committee tried to come in with a plan which was economical. There was some feeling at the Cacus that the old part of the Town Hall should not be torn down. This would take off approximately \$15,000 00. Renovations of the Town Hall would bring Police, Court and Town accounting system all under one roof. The price of the land for the Fire Station is \$25,000.00. The committee felt this was a fair price according to the tax records. They felt this Fire Station should be near the larger buildings in town. The affect on the tax rate would be \$1.74 per thousand.

Mr. Paul Lieneck, Architect for the Town Hall Study Committee showed a film of the proposed plans of renovations of the Town Hall Building and the Fire Station.

Polls were declared closed at 8:30 o'clock P. M. The ballot clerks were called to the stage to count ballots.

Article No. 27 continued: The Budget Committee agreed that a new Fire Station was needed and that the Town Hall should be remodeled under the Study Committee's proposed plans, with one reservation. They did not recommend that the old Library section of the Town Hall be torn down. Roscoe Coburn stated he feels we have outgrown headquarters, but he is not in accord with the Fire Station site. Richard D'Amato stated this was their problem as there was no land available.

Robert Potter stated he believes there is economy in building a two-story building for the Fire Station.

Roland Sprague spoke on the availability of housing of equipment.

Alfred Medlyn moved and it was seconded that this be a ballot vote by use of the checklist. It was voted in the affirmative.

Robert Wisniewski moved and it was seconded and voted in the affirmative that this motion be split into two separate items. Robert Philbrick moved and it was seconded by Andrew Rothovius we have a ballot on both questions. It was voted in the affirmative. It was moved and seconded and voted in the affirmative to have two simultaneous ballots.

Town Moderator, Mr. Hoadley, ruled in either case this would take a two-thirds vote.

Mr. Hoadley felt the committee would bring in another motion.

Richard D'Amato, chairman of the Town Hall Study Committee, moved and it was seconded that the sum of \$151,000.00 be raised and appropriated for the construction of Fire Station and purchase of Fitton Land, said funds to be raised by the issuance of Bonds or Notes of the Town, the Board of Selectmen to have the authority to fix the date, maturities, denominations, interest rate or discount rate, plans of payment, form and other details of the Bonds or Notes and to provide for the sale thereof, all in accordance with the terms and provisions of the Municipal Finance Act, Chapter 33, New Hampshire revised statutes annotated 1955 amended. Ballot vote Yes 364

No 218. Motion lost. By request recount of Ballots Yes 364 No 219. The Moderator ruled motion remained the same.

Richard D'Amato, Chairman of the Town Hall Study Committee, moved and it was seconded that the sum of \$145,300.00 be raised and appropriated for the remodeling of the Town Hall, said funds to be raised by the issuance of Bonds, or Notes of the Town, the Board of Selectmen to have the authority to fix the date, maturities, denominations, interest rate or discount rate, plans of payment, form and other details of the Bonds or Notes and to provide for the sale thereof all in accordance with the terms and provisions of the Municipal Finance Act, Chapter 33, New Hampshire revised statutes annotated 1955 as amended. Ballot vote Yes 253 No 314. Motion lost.

Ernest Barrett, Chairman of the Budget Committee, moved and it was seconded and voted in the affirmative that we complete Article 28 & 22, and that this meeting be recessed until March 14, 1969 at 7:00 o'clock P. M.

Article No.28 (A): Lloyd Parker, Chairman of the Dump Study Committee reported to the assembly that the committee this past year was to find answers to questions given to them last year. He reported they looked at several pieces of property. They have an offer on Colburn Road site, of thirty-one acres of land, more or less. The committee feels it most practical. The town could make use of this land many years to come. Machine inspection was made, and also cost of machinery. The committee feels this has been a four year study. Mr. Parker stated he feels this subject matter has been brought to head a great deal earlier than neighboring towns.

The Budget Committee moved, and Robert Philbrick seconded the motion, to raise and appropriate the sum of \$25,000.00 to purchase the thirty-one acres, more or less, presently on option to the town, for the purpose of locating a Sanitary Landfill Refuse Area, and Further that said purchase shall be subject to a comprehensive soil survey report satisfactory to the Selectmen and Dump Study Committee.

Standing vote was called. Favor 174 Opposed 211. The motion was lost.

The Moderator ruled the balance of this article out of order, which was depending on action of part. (A)

Article No. 22: On recommendation of the Budget Committee and seconded by Selectman Grasso it was voted to adopt the following policy which implements the decision made under Article 15 at the March, 1964 Town Meeting:

WATER AND SEWER MAIN PIPE EXTENSION POLICY

Main pipe extensions will be made upon petition of prospective customers, subject to the following terms and conditions:

- a. Main pipe extensions shall be laid by or to the specifications of the Milford Water Department and shall be the property of the Milford Water Department.
- b. Highways or streets in which an extension is to be made must have been laid out, lines and grades established, rough graded, and dedicated to public use.
- c. The size of the pipe shall be determined by the Water Department in accordance with conditions surrounding the extension, including the possibilities of future expansion and fire protection.
- d. When construction is performed by the Water Department the customer or customer group will be required to make a deposit with the Water Department in advance of construction. The deposit shall be the full amount of the cost of construction as estimated by the Water Department and a refund of additional billing will be made when

the work is completed and the actual cost known. It is understood that any estimated main pipe extension costs will not include sums for contingencies and extra costs incurred because of abnormal conditions which will be at the sole expense of the customer (s). Water service or sewer service will not be commenced until installation costs have been paid in full.

- c. If during the period of five years immediately following the date of the original contract an additional customer, or customers, are connected to an extension made under a deposit agreement, the deposit requirements will be recomputed according to the new customer density established, and the new customer (s) will be required to deposit their proportional parts of the total deposit and a pro rata refund will be made to the original depositors or their assigns.
- f. If a subsequent main pipe extension is made, either continuous or lateral, supplied from the original extension upon which a deposit is still refundable, a recalculation will be made on the basis of the customer density thereby established. If the customer density is increased thereby it will be combined with the original extension and pro-rata and equitable refunds will be made to the depositors of record or their assigns. If the customer density is thereby decreased then such an extension will be considered a new separate extension.

Meeting recessed at 11:30 o'clock P. M.

Town Ballot was announced at 12:40 o'clock A. M.

Total Ballot 1088

Respectfully submitted,

SCOTT E. GANGLOFF, Town Clerk.

Synopsis of Recessed Town Meeting *March 14, 1969*

The Meeting was called to order at 7:00 o'clock P.M.

Mr. Hoadley, Town Moderator, refreshed everyone's memory on the March 11th meeting. Recessed after Article 22.

Prior to action on Article 10, Robert Davis, Milford School Board member, spoke to the assembly that there had been a great deal of publicity about a strike of the Milford teachers. Mr. Davis stated there has not been or would be consideration of a strike. The teachers know this hurts no one but the teachers, and the students.

Mr. Hoadley, Town Moderator, stated those who recommended building of the Fire Station have publicly announced they intend to move for reconsideration of this article. He stated the public has been advised of this through the newspaper. The Moderator and the Town Counsel have fully been informed on how they intend to go about it. It seems every possibility has been done to make this effort open and above board. The chair intends to put this to vote. Because we have a group smaller than has been, because of the fact that it is Friday evening, because of other activities, which make it difficult for some people to get here, the chair requests that this be postponed at such time as we are going to have as large a group as we are going to have. Chief Sprague agreed to this, and we will proceed with article where we left off until such time as it appears to the chair that everyone is going to arrive. At that time the chair will recognize a motion to reconsider.

Article 10. On recommendation of the Budget Committee and seconded it was voted unanimously to raise and appropriate the sum of \$4,500.00 to purchase a 1968 Sicard Snowblower.

Article 11. On recommendation of the Budget Committee and seconded by Selectman Grasso it was voted to raise and appropriate the sum of \$13,995.00 for the purchase of a Street Sweeper.

Article 12. On recommendation of the Budget Committee and seconded it was voted unanimously to raise and appropriate the sum of \$9,500.00 for new Backhoe, and that the present Ford Backhoe be used as a trade-in.

The Budget Committee felt that the present condition of the Ford Backhoe appeared uneconomical to retain.

Article 13. The Selectmen made a motion to raise and appropriate the sum of \$23,000.00 to replace the John Deere tractor at the town dump. A standing vote was requested. It was not counted as the Moderator ruled it was definitely lost.

The Budget Committee moved and it was seconded and voted in the affirmative that we take action on Line Item Town Dump previously passed over.

Ernest Barrett, Chairman of the Budget Committee, recommended \$7,100.00 be raised and appropriated for the operation of the town dump. Chairman Silva made an amendment, and it was seconded by Mr. Grasso, to raise and appropriate \$11,500.00 for the operation of the town dump. The chair was in doubt and called for a standing vote. Favor 143. Opposed 223. Amendment was lost. The Moderator ruled the Budget Committee withdraw their original motion and suggest a substitute. On recommendation of the Budget Committee and seconded it was voted unanimously to raise and appropriate the sum of \$8,600.00 for the operation of

the town dump. Mr. Hoadley, Town Moderator, stated it appeared at this time 8:00 o'clock P.M. to have as large a group as we would have.

Dr. Thomas Moriarty presented motion and seconded by Dominic Calvetti, "Having voted with the prevailing negative side of the question of the Fire Station under Article 27 of the Warrant, I move that the meeting reconsider the question whether the sum of \$151,000.00 be raised and appropriated for the construction of a Fire Station and purchase of Fitton land, said funds to be raised by the issuance of bonds or notes of the Town, the Board of Selectmen to have the authority to fix the date, maturities, denominations, interest rate or discount rate, plans of payment, form and other details of the bonds or notes and to provide for the sale thereof, all in accordance with the terms and provisions of the Municipal Finance Act, Chapter 33, New Hampshire Revised Statutes Annotated 1955 as amended."

The Moderator stated this has all been checked thoroughly as far as legality of the reconsidering. The chair could refuse to entertain this motion. It did appear there was some reason to reconsider. The vote was a very close one. Because of the fact of voting the two articles at the same time, different colored ballots were confusing. Under these circumstances the chair would entertain this motion.

A standing vote was requested. Favor 195. Opposed 225. Motion was lost.

Article 14. On recommendation of the Budget Committee and seconded it was voted in the affirmative to raise and appropriate the sum of \$2,500.00 to provide a tool and equipment storage shed at the Riverside Cemetery.

The Budget Committee felt the original proposal included room for the present Ford Backhoe to be stored in this building. Without the Backhoe a smaller building could be erected.

Article 15. This was passed over until the traffic survey article.

Article 16. On recommendation of the Budget Committee and seconded it was voted unanimously to authorize the expenditure of \$4,630.00 from the Parking Meter Fund for Town Road Aid, Apportionment B.

Article 17. On recommendation of the Budget Committee and seconded it was voted in the affirmative to authorize the expenditure of \$2,000.00 from the Parking Meter Fund for the purpose of replacing worn out parking meters.

Article 18. The Budget Committee recommended and seconded by the Selectmen and voted in the affirmative to authorize the Moderator to appoint a committee of five to investigate the feasibility of purchasing land for the multiple use reservoir, Site 16, on Tucker Brook, for water supply purposes and report their findings to the Selectmen not later than September 1, 1969.

Selectman Grasso reported on the Kokko Wells and A.B.C. Realty land. Both sites had been tested according to instructions last year. Kokko plan has gone to the State. Have approved the site. Both sites have been approved by the New Hampshire Water Supply and Pollution Control. Water from both sites is satisfactory. The Selectmen are waiting for information to come in on both of them.

Article 19. On recommendation of the Budget Committee and seconded it was voted in the affirmative to raise and appropriate the sum of \$1,500.00 for the support of the Monadnock Region.

Article 20. On recommendation of the Budget Committee and seconded it was voted unanimously to raise and appropriate the sum of \$1,000.00 for the Milford Conservation Commission. This amount will be

matched 50% by the Spaulding-Potter Charitable Trust. These funds together with funds from other sources, to be used for the Conservation Commission's programs including improvement of Railroad Pond.

Article 21. On recommendation of the Budget Committee and seconded it was voted in the affirmative to turn over to the Milford Conservation Commission to administer the town owned land on North River Road on which the present town dump is located at such time as the Town no longer needs to use it for refuse disposal.

Article 22. Acted on.

Article 23. Frederic Fletcher moved and it was seconded that to see if the Town will vote to become a member of a Nashua Regional Planning Agency be tabled. The Moderator called for a voice vote, and it was not clear. Tally vote was called for. Favor 240. Opposed 78. It was carried.

Article 24. Frederic Fletcher moved and it was seconded and voted in the affirmative that to see if the Town will vote to appropriate the sum of 15 cents per capita to finance studies to be conducted by the Regional Planning Agency be tabled.

Article 25. The Moderator ruled to pass over this article without any action.

Article 26. On recommendation of the Budget Committee and seconded it was voted unanimously to name the park at the east end of the swinging bridge the "Dr. Oscar Burns Memorial Park."

Lester Perham stated the American Legion will, no doubt, have a suitable bronze plaque naming this park and its dedication to Dr. Burns.

Article 27. Acted on.

Article 28. Acted on.

Article 29. The Moderator ruled this article out of order, depending on ballot vote on Article 7.

Article 30. On recommendation of the Budget Committee and seconded it was voted unanimously to authorize the Moderator to appoint a committee of seven (7) to study the organizational framework of the Milford Water Department; and to arrange for an audited and complete detailed annual financial report of the Water Department operations, which when presented can be readily understood by the public. This committee shall consist of the three (3) Water Advisory Board members and four (4) others as the Moderator may determine. Said committee shall submit a written report to the next Town Meeting with their recommendations.

Article 31. On recommendation of the Budget Committee and seconded it was voted unanimously to authorize the use of money which is earmarked (\$1,785.50) to hire a qualified firm or person to examine the Town's accounting system; and to make recommendations for and implement if possible within this amount, a modern and uniform accounting system for the Town of Milford and further that the Moderator appoint a five (5) man committee to hire said firm or person and coordinate with the Selectmen the implementation of this system. If it is found that this authorization is insufficient for implementation of a uniform accounting system, said committee shall submit a written report to the next Town Meeting with their recommendation and cost estimate.

Article 32. On recommendation of the Budget Committee and seconded it was voted in the affirmative to raise and appropriate the sum of \$20,000.00 for the purpose of defraying the cost of preliminary report and plan preparation for sewerage and sewage treatment facilities for the Town of Milford, such sum to be raised by the issuance of not exceeding \$20,000.00 in serial Bonds or Notes under and in compliance with the provisions of the Municipal Finance Act (Chapter 33 of the New Hampshire

Statutes Annotated 1955 and any amendments thereto) and to authorize the Selectmen or Sewer Commission (or other legally authorized representatives) to issue and negotiate such bonds or notes and to determine the rate of interest thereon and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Milford and pass any vote relating thereto.

Article 33. The Budget Committee recommended and it was seconded and voted unanimously to raise and appropriate the sum of \$450.00 to replace the present oil burner with a new oil burner and controls for the William Y. Wadleigh Memorial Library.

Article 34. Frederic Fletcher moved and it was seconded that to see if the Town will vote to raise and appropriate the sum of money needed to conduct a Federal Aided Traffic Survey of the compact area of the Town be tabled. Tally vote was called. Favor 202. Opposed 94. It was carried.

Article 15. The Budget Committee moved and it was seconded and voted in the affirmative that to see if the Town will authorize the expenditure of \$8,000.00 from the Parking Meter Fund for a traffic signal light at the intersection of West Street and Route 101 (Elm Street) be tabled.

Article 35. Under any other business that may legally come before said meeting:

A. Frederic Fletcher made motion and it was seconded and voted in the affirmative to authorize the Moderator to appoint a committee of eight citizens, himself acting as Chairman, to conduct the Nashua Regional Planning Agency investigation and report at the next annual Town Meeting.

B. Armstrong Hunter moved and it was seconded and voted in the affirmative that the Moderator be authorized to appoint a committee of five to continue the compilation of Town History material and that the funds shown (on Page 46 of 1968 Town Report) as remaining for this purpose be made available for its expenses.

C. Russell Kincaid moved and it was seconded and voted unanimously that the Town Hall Building Study Committee be requested to bring a new proposal for a Fire Station to the next town meeting and also that at least one public meeting be held prior to June 30, 1969.

D. Robert Potter moved and seconded by Andrew Rothovious and voted in the affirmative that the Selectmen make a study of the Town Dump problem and make a recommendation at the next annual Town Meeting.

Ernest Barrett, Chairman of the Budget Committee, thanked the members of the Budget Committee for their hours of work.

The Moderator declared the meeting adjourned at 10:30 o'clock P.M.

SCOTT E. GANGLOFF, Town Clerk

WARRANT

The State of New Hampshire

*To the Inhabitants of the School district in the town of Milford
qualified to vote in district affairs:*

You are hereby notified to meet at the Milford AREA high school in said district on the Seventh day of March 1970, at seven o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of School Board and Truant Officer and to fix the compensation for any other officers or agents of the district.

2. To hear the reports of agents, auditors, committees, or officers chosen and pass any vote relating thereto.

3. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.

4. To see if the district will vote to authorize the School Board to make application for and accept on behalf of the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or the State of New Hampshire or from any other source.

5. To see what sum of money the district will vote to raise and appropriate for the support of the schools, for the payment of salaries for school district officials and agents, and for the payment of the statutory obligations of the district.

6. To see if the district will vote to raise and appropriate the sum of \$2,000.00 to hire a consultant to make surveys and prepare plans and specifications for the grading, landscaping, paving, etc., for the Jacques Elementary School grounds and adjoining area (formerly Endicott Park).

7. By Petition: To see if the district will vote to make available to first and second grade public school pupils, transportation which is not currently in effect: specifically, those students who live within the two mile limit and are subject to traffic hazards.

Given under our hands at said Milford this 14th day of February 1970.

Milford School Board

Today we are in an era of constant change. The rate of change these past years has at times seemed quite rapid and often without evident purpose. The past year has seen many changes in our School System, and we of the Milford School Board feel that though many, they have been with purpose, the improvement of the educational program for our youth.

The two most apparent changes this past year have been the completion of the renovation of the old Junior High School (once the High School), now known as the Bales Elementary School, and the construction of a new Junior High School. The Bales Elementary School will provide for elementary expansion and enable us to better meet the requirements of newly adopted minimum standards for elementary schools to become effective in July 1972. The New AREA Junior High School (present capacity of 500 pupils) relieves the overcrowded AREA Senior High School, and will eventually, through additional construction, accommodate up to 1200 pupils.

The end of the 1968-69 school year saw a migration of about 30 percent of our staff from the Milford Schools. The reasons for leaving were many but did include three who retired; Emma Barnes after fifty years of teaching (forty-three in Milford), Roger Crouch, elementary teacher, formerly of Mont Vernon, and Marion Gangloff, School Nurse for ten years. Also "Liberated" from the Milford Schools in June were 185 graduating Seniors, our largest class to graduate to date.

Following a busy summer of recruiting a new staff and preparing our schools for the fall opening we started school September 3rd with a full staff and 2,078 students. George Corson, former Milford High School Principal became the AREA Junior High Principal. Donald Desmarais, formerly of the Milford High School staff, returned to Milford as AREA Senior High Principal, and his assistant Michael Smith, a newcomer to the Milford System, comes to us from Iowa. Mrs. Rebidue continues as our very able Elementary Principal. The Board has much confidence in the ability of this staff to provide the leadership needed in a good School System.

The beginning of the school year in September saw the proven

departmentalized teaching of the sixth grade extended to the fifth grade. This System in the upper Elementary grades has done much to enable us to utilize teacher strengths more effectively and also eliminates problems that arise between teacher-pupil personality conflicts (one teacher all day) that appears at this age level. The beginning of this school year also saw a revised English Curriculum for AREA High Juniors and Seniors designed to provide the basic requirements needed while still offering electives in various fields of English. These electives (semester courses) would supplement the regular work in writing, vocabulary, etc., and should strengthen the course through increased interest. In the area of curriculum development the Board has stressed the need for participation of all staff members in reviewing course curriculums and recommending revision where advisable to improve and update our course offerings.

Following our Christmas vacation the seventh and eighth grades occupied the new AREA Junior High School off Osgood Road, and adjacent to the AREA High School. Since the opening of schools in September they have been housed at the Bales Elementary School (seventh grade) and the AREA Senior High School (eighth grade), awaiting the completion of the new facility. The architect was Hersey Associates of Durham, N. H. and the contractor was Donald Snyder of Concord, both of whom did a fine job for the Milford School District and the town.

In connection with this new facility and the now numerous (five) buildings and associated driveways and parking lots of the system, the Board has found it necessary to initiate an ordinance relative to vehicular use of these areas. Prior to this ordinance the local police had no jurisdiction over vehicles on the school grounds and enforcement of parking regulations was very difficult. Now that they have authority to take action on violators of reasonable rules to safeguard your youngsters in your schools, we hope they won't have to act.

This report must also include reference to our custodial staff and their new Supervisor, Lynnwood Durrell, who together have done a superb job of maintaining our schools (and protecting the taxpayer's investment) in a manner of which to be proud. Faced with often fewer than authorized personnel but with the assistance of student help and overtime hours, Mr. Durrell has done much to improve our

physical school plant. To this end the Board feels strongly relative to supplying the necessary manpower and materials to insure the proper maintenance of the investment we have in buildings and grounds.

What's in the future for the Milford schools? There is always the question of what, why, where and how much. The Milford School Board will be frequently faced with these questions as our area continues to grow and with it the school population. The Board has recently called into service our Study Committee to assist us in this area. Because we are an AREA Junior-Senior High School with Amherst, we have also solicited the thoughts of their Board and Study Committee to help to determine the best course of action to take in the future. Any action taken must be in the best interest of the Milford taxpayer but not without consideration of our moral and legal obligation to Amherst as long as it serves the best interests of both.

In summary, Milford has a School System to be proud of, but needs the continued and strengthened cooperation of the townspeople and especially the parents of school children to assist in supporting, protecting, maintaining and improving our schools. Our youth of today have challenged the "establishment" to prove our sincerity about wanting to improve the lot of the human in his existence on this planet. Can we rise to their challenge and prove our interest in them or are our words as empty as they claim, ruled by monetary values, selfishness and just plain lack of interest? We, the School Board, fervently pray that this is not so in Milford.

THE MILFORD SCHOOL BOARD

ROBERT B. DAVIS, Chairman

WILLIAM SHUMAN

JOSEPH BEAUDOIN

Administrative School Report

To the Citizens of Milford:

Educational reform has taken place, as it never has in the past, during the 1960's. Change in education now seems to be a recognized need in all parts of our society. The 1960's have closed with forces and events that have led to the threshold of a new decade as being one of the most promising and active periods of educational reform in our history. Many more demands are being made by the rapidly changing and increasing complexity of our society. We are becoming more aware that our children will need more and better education to survive. Education that was sufficient for our needs is no longer sufficient for the world of the future. The things that children need to learn with the help of schools are multiplying at an overwhelming rate. There are practices and programs that are necessary if we are to deal effectively with the changing world.

Like society in general, education is currently experiencing a dynamic development of new technologies. We must examine them with care and those proven to be successful in aiding the learning process be put into service more rapidly than new technologies have been in the past.

Research has revealed more about individual differences, the merit of the individual and about providing for his needs. It has also come up with evidence of the great variety of ways in which people can and do learn.

This challenge we must meet. We must be ready to develop practices and programs capable of increasing the efficiency of learning. In Supervisory Union No. 40 we have begun to meet the challenge in the sixties as numerous innovations in methods of instruction and school organization have evolved, such as the use of new instructional materials, use of para-professionals, use of part-time professionals, the introduction of team teaching, team learning, cooperative teaching, flexible group patterns, modified grading and many other innovations. These are signs of progress that are necessary to reach the goals that we have set forth.

We are striving to develop and continue to develop an ever-changing curriculum to search for better ways of instruction in order to

fulfill our philosophy of education in the development of each child to his optimum. As each year passes, the needs of more children than ever before must be met. Our school population increases continually. At the beginning of the last decade 2,313 pupils were enrolled in our schools. As we reach the 1970's, our enrollment has soared to 4,073.

The enrollment of the Milford Elementary School this year has shown our greatest increase, which at this time is 822 pupils. This is 53 pupils above that of last year, which is the equivalent of two classrooms. This year, we have seven first grade classrooms and we anticipate another large first grade class this next year. The Garden Street School will no longer be large enough to house all the first and second year pupils, which means that at least one second grade class will be required to move to the Lt. Leon Jacques Memorial School with the third and fourth grade classes. The Bales Elementary School will house grades five and six and the Annex will be used by the Special Class, The Trainable Class and the Music Instructor.

Our staff needs for next year will include one new second grade position as the present five second grade teachers will not be able to handle the present first grade which has an enrollment of 170 pupils at this time. We also are requesting a full-time music instructor which involves another half-day, as of now we share this person with Mont Vernon. Another great need in the Elementary School is a full-time art instructor for this next school year.

Class sizes still are higher than desired, especially in the primary grades; therefore, another teacher aide is desired so that each of the first four grades will have an aide to help teachers with non-teaching duties. In this way, more individual attention can be given to pupils by the teachers.

We should be seriously considering a full-time physical education teacher for the elementary pupils. Recent studies indicate that physical education activities are instrumental in the acquisition and development of many character traits which enhance skill and ability. These traits include leadership, self-control, cooperation, social action standards and ethical social qualities. Sociability does display an interrelatedness which is inseparable from "general learning ability."

We, in the Milford Elementary School, are constantly striving to meet the demands of our times. We are adopting changes which we

feel are giving our boys and girls better, far-reaching education.

As the year 1968-69 progressed, it became evident that the plans for entering the new Jr. High School in September were not to be realized. The delay was unavoidable because of pending decisions to be made by the New Hampshire Supreme Court regarding the AREA School Plan which directly affected the School District in the selling of the bonds.

Fortunately there was room at the AREA High School to house the eighth grade and after some careful planning and through the cooperation of Mrs. Rebidue, a way was found to house the seventh grade in the Bales School. We occupied two rooms in the main building, two rooms in the basement area, five rooms in the annex and four study-gym class areas in the Bales gym. We, through the cooperation of Mrs. Rebidue and Mrs. Tostevin, used the lunch room which was constructed for those pupils in the elementary grades housed in the Bales School.

Through the fine cooperation of pupils and teachers, we carried on an almost normal classroom and school procedure with the seventh grade. As time allowed, the Jr. High principal traveled between the two schools to administer to the needs of both grades.

Each year we find the seventh grade to be much larger than the previous year, reflecting the growth of Milford and the sending districts of Amherst and Mont Vernon. In June of 1968, our seventh grade numbered 216 and when we opened our doors in September, the same grade (as eighth graders) numbered 226, showing an influx here of approximately ten students over and above those who did not return. Not too many years ago our losses in pupils from June to September would approximately equal our gains, and we thus remained fairly stable in numbers. Our seventh grade numbered 256 pupils. We now find ourselves with about 480 pupils to be housed in the new AREA Jr. High School.

All parties concerned worked at a feverish pace during the Christmas recess to ready the new building for occupancy on January 5th.

Those of us involved in education are pleased to once again have grades seven and eight in their own building and in the proper educational environment for their age. We feel that their maturation will assume a more normal level under these circumstances.

At this writing, we are gradually getting organized and have many plans under way to assure our desires to create an ideal Jr. High School program.

The Milford AREA Sr. High School opened in September with a first day count of 1,001 for grades eight through twelve. Without grade seven in the AREA School, the extreme overcrowding evident last year had been alleviated, making the entire situation much more tolerable. With the eighth grade moving to its own facility, along with grade seven, the AREA High School should be comfortable for the next few years.

In spite of a heavy loss of twenty-four teachers on the secondary level, we have been most fortunate in obtaining teachers of high quality and who are student-oriented.

Those who assess the present and predict the future tell us that knowledge now is doubling every seven years. During a single week, the world production of new books and periodicals totals 40,000 items. It is now anticipated that the average man will change his occupation three times in a lifetime. And it is predicted that by the year 2000, scientists will be able to create life in a test tube, computers will monitor and influence nearly every aspect of our daily activities, and the world's population will have at least doubled.

In a world characterized by continuing explosions of population, science, knowledge, and technology, it is mandatory that a child's education be devoted less to the accumulation of scattered bodies of content knowledge, and more to the development of skills and processes necessary for coping with this continually changing world. Consequently, those responsible for hiring new teachers for the Milford schools will have to continue to distinguish between teachers oriented to subject matter and teachers oriented to the process skills of thinking and behaving.

The monumental tasks required of today's curriculum planner cannot be fulfilled by traditional approaches. As the curriculum arena expands and the planning tasks become more complex, the composition of the planning force must change. Curriculum design and engineering in modern education requires the coordinated involvement of specialists in subject matter, teaching technology, the social and psychological sciences, and in administration and supervision.

This year has seen several changes in our secondary school curriculum. The majority of changes have occurred in the area of English. Traditional English 11 and 12 has been replaced with a series of 28 one semester courses, allowing for greater student choice of in-depth study in relevant areas. Included in the above is an expansion of the multi-text approach and team teaching.

Our Social Studies program, which was completely overhauled in 1967, has had few course changes since. However, additional course offerings are presently being organized for next year. A team of teachers working on the Curriculum Council last summer completely revised the Junior High Social Studies curriculum in order to better prepare students for the high school curricula.

A noticeable and healthy change in the mathematics area is the increase in number of students taking the higher math courses. The very successful computer math course has doubled in enrollment and has grown to two sections. Unfortunately, having one terminal in the school limits the number of students allowed to take the course. It is hoped that an additional terminal can be added in the future. With further expansion in this area, it is also hoped that the computer terminal will have application in several other areas in the curriculum, such as business and science.

Secondary Curriculum Recommendations and Future Plans:

1. Addition of Spanish to our present language offerings of French, Latin and Russian.

2. Complete revision of ninth and tenth grade English program. Monies should be provided to hire teachers to do this planning in the summer.

3. Purchase a small computer for the school. This would represent a financial savings over a two year period, provide for expansion of the present program, and allow us to sell time-sharing on our computer to surrounding schools.

4. Include additional advanced science courses to our present offerings.

5. Expand our Vocational Program to include Distributive Education and Building Trades.

6. Drop ninth grade Cabinet Making and institute a course in Building Construction Trades.

7. Include Heat Treatment of Metals in our Vocational Machine Shop Program.

8. Continued expansion of our library in order to bring us up to the American Library Association's recommendation of 30,000 titles. At the present time, we have approximately 8,000 books.

9. Expansion of our Audio-Visual Department to include a video-tape recorder which would have applications in all subject matter areas.

The overall atmosphere at the AREA High School is one of high student and faculty morale with a real concern for the betterment of education. The administrative staff has adopted an "open-door" policy toward students. Students are encouraged to seek advice and raise questions in reference to matters of school policy as they deem necessary. Rarely does a day go by that a student does not confer with the administration. Slowly but certainly, students are taking on the idea that administrators are truly concerned about listening to student concerns and providing for improved opportunities. It is our experience that if students are given opportunity to discuss issues and raise questions, they are able to accept and support decisions even though they might not have been directly involved in the decision-making process.

The key to a first rate program is dependent on the quality of the staff who work in our schools. To our dedicated staff we extend our gratitude for the part that you fulfill in educating our children.

We commend you, the citizens of Milford, for your continued support of quality education for our youth.

IRA. A. STICKNEY, *Superintendent*

Jemima Wallace came to Milford from England about 1910. She had been trained as a nurse, and spent her life here in that profession. Her interest in people in general, and the young people of Milford in particular, led her to mention the high school in her will and the above fund is the result. The income is for school purposes as defined in the bequests, and is administered by a board of trustees. Jemima Wallace died July 15, 1964.

Report of School Lunch Supervisor

In making out my report for 1968-1969 it still shows an increase in participation.

The Bales kitchen was a fine addition to the serving of the overload in the Jacques School. Mrs. Smith and Mrs. Caswell with their fine assistants did an excellent job.

Now since opening the new Junior High, the load has become heavier at the Senior High and it would seem that better facilities should be provided for transporting the food. Mrs. Rougeau did the transporting with her beach wagon. As she is now leaving for another position, Mrs. Barbara Terault, a newcomer, will transport with her covered truck. We find all this food requires a lot of lifting by the ladies which takes them away from their other duties.

The participation increases by leaps and bounds.

Here is a report of the increase.

	Pupils	Adults	Pupils	Adults
Meals served Sept.	13,883	1,540	15,846	1,062
Meals served Oct.	20,383	1,048	20,988	1,545
Meals served Nov.	17,494	1,376	18,227	1,221
Meals served Dec.	14,211	1,075	18,816	1,316
	-----	-----	-----	-----
Total	65,971	5,039	73,877	5,144

Milk Purchased 1968 — 121,893 ½ pints

Milk Purchased 1969 — 135,430 ½ pints

Total receipts, Sept. - Oct. - Nov. - Dec. 1968 — \$28,489.42

Total receipts, Sept. - Oct. - Nov. - Dec. 1969 — \$34,490.25

Meals are at the same price as last year, 30 cents and 35 cents for pupils and 45 cents for adults. Milk is sold to cold lunch pupils at 3 cents daily, 15 cents weekly.

All schools have a participation of 50% and over.

We now employ 12 part time and 10 full time workers.

I am sorry to report that Mrs. Frieda Theroux is on sick leave. She has worked on the Lunch Program for 15 years, 14 with me.

As this will be my last year, I am thankful for the experience of serving all of the school students and proud of my record as Supervisor as the Town of Milford has always been in the black. I would like to express my thanks for all the support I have received in the operation of the program and for the support of all my workers.

MRS. JANE TOSTEVIN, *Supervisor*

Number of home visits by School Nurse: 480

Synopsis of School Meeting

March 8, 1969

The annual School Meeting was held at the Milford Area School, March 8, 1969. Moderator Salvatore Grasso called the meeting to order at 7 P.M. Reverend Daniel W. Ferry offered the invocation. Moderator announced that the warrant would be read as it was voted upon. Permission was granted to Mr. Ira M. Stickney, Superintendent, and James F. Enright, town counsel, to speak at this meeting. Vote by checklist and written ballot would be used if it was the will of the majority.

Article 1: Mr. Charles Ferguson, Chairman of the School Board, moved that this article be passed over and acted upon with Article 5. Mr. Davis seconded the motion. So voted.

Article 2: Mr. Ferguson moved that we accept all reports as they appear in the School report. Mr. Davis seconded the motion. So voted.

Article 3: Mr. Ferguson moved that the auditors of the town be appointed the auditors of the school district. Mr. William Shuman seconded the motion. So voted.

Article 4: Mr. Ferguson moved that the district vote to authorize the School Board to make application for and accept on behalf of the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or the State of New Hampshire or from any other source. Mr. Shuman seconded the motion. So voted.

Article 5: Mr. Ferguson moved that in the absence of any other motions, we act on the recommendations of the Budget Committee and that the expenditures of the budget be voted on item by item and that the district raise and appropriate the sum total of the items voted for the support of schools and agents and for the payment of statutory obligations of the district and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation which balance is to be raised by taxes of the town. Ernest Barrett, Chairman of the Budget Committee, seconded the motion. So voted.

TOTAL BUDGET		\$1,648,865 00

A lengthy discussion on proposed salaries, with strong arguments both pro and con was deliberated. Mr. Charles Ferguson amended the Budget Committee's recommendation to read \$864,420.00. Mr. Shuman seconded the motion.

E. Barrett stated the Budget Committee felt that a 10.2% increase over last year is sufficient to maintain the salary schedule in the school; that we have an outstanding merit system as it is, therefore that it should not be increased now. Mr. Ferguson stated that the amount proposed by the School Board was a compromise between the amount wanted by the teachers and present figures and also questioned the fact that the present salary increment of 0-\$800 would maintain the Merit System.

Mr. Shuman remarked on the good achievements produced in such a short time by the Merit Plan and that in order to perpetuate the Merit Plan they must have the increase. He pointed out that last year there were no across the board adjustments on individuals salaries because of the new \$6,000 base approved by the voters. This year, however, the Board is trying to avoid any across the board adjustments therefore they must change the Merit increments.

It was pointed out that the vote on this series did not affect the base salary but did affect the maximum amount that can be earned by the individual. Question was raised pertaining to authority to give salary increases. The basis for a salary raise is determined by analysis of the teacher by his peers not the School Board. Mr. Shuman explained that a teacher is observed by the Administration in the Area School. Five people are on this committee. These people have scheduled visitations of observation, periodically they meet and arrive at an evaluation of the teacher. This evaluation determines the final rating on the Merit Scale and in turn determines his salary increase. For budgetary purposes, the Board must include sufficient money to cover the highest amounts these

people could receive. In the proposed budget a teacher rated as average would qualify for a \$700 increase. Last year this was \$400.

Many people questioned why the Merit Plan increments must be changed, feeling approval of the plan itself but retaining its present amounts. Mr. Shuman stated that under the proposed budget all pay increments would come from the merit plan. That the size of the increments is being changed because of a change in base pay to \$6,200. Mr. Davis stated if this amount is voted down the school will probably lose the merit plan.

E. Barrett clarified the Budget Committee's recommendation. They are definitely in favor of the merit plan but the present committee suggests retaining the 0-\$800 increments.

Robert Philbrick amended Mr. Ferguson's amendment to read \$834,420. A \$30,000 reduction as recommended by the Budget Committee.

More discussion followed. W. Murray a representative of the teachers, stated that Milford must effectively compete with other schools across the State. At present the school is \$62.00 above the average State figures. However, he also stated that there are thirty-one other schools rising to the \$6000 base this year. Mr. Ferguson stated that there were proposed raises for principals, secretaries, and aides also included in this figure.

The vote was called for on Mr. Philbrick's amendment to the amendment reducing the amount to \$834,420.00. So voted.

Vote called for Budget Committees original motion of \$834,420.00 for salaries. So voted.

Mr. Grasso called for discussion on the next item; 210.2 new teachers. Mr. Ferguson made a motion to amend the figure to \$76,800.00 the School Board's proposal. Mr. Davis seconded the motion. Mr. Philbrick made a motion to amend the amendment to read \$54,600.00, the amount recommended by the Budget Committee. Seconded.

Mr. Chester Buck spoke against Mr. Philbrick's amendment stating that one principal is not able to supervise 3 large schools thus leaving important decisions to an unqualified person. Mrs. Marion Jacques substantiated the need of an assistant principal. At present there is a probable total of 853 students under the supervision of one principal. The State recommended figure is 300 students.

E. Barrett stated the Budget Committee recommends a \$6,100 base rather than \$6,200, that a secretary and aide would alleviate the work load of the principal, that six new teachers be hired rather than 8 as proposed by the Board.

Mr. Heelon requested the budgeted figure for a principal then suggested that this \$9000 be added to the amount. William Andrews made a motion to amend the amount to read \$63,600.00 to include principals salary. Seconded by Harold Remick. Motion was lost.

Mr. Philbrick's amendment of \$54,600.00 for new teachers was then put to a vote. Motion carried.

Original motion of Budget Committee of \$54,600.00 put to vote. So voted.

Fringe benefits and reading readiness were approved as recommended by the Budget Committee.

Discussion was called for on item 210.5 Course work. Mr. Shuman made a motion that \$5,000.00 be raised and appropriated for course work. Mr. Davis seconded the motion.

E. Barrett stated that the Budget Committee did not recommend this item, that the merit plan was enough incentive for the teachers and that they should not have to be reimbursed for course work also.

Mr. Shuman stated that the merit plan is being stretched too much. The teachers have consistently requested this item and the budgeted figure represents only half of the amount asked for. He felt that this was a long overdue requirement. Mr. Murray stated many New Hampshire Schools are paying for course work. Mr. Shuman's motion was put to vote. Motion lost.

The floor was opened to discussion on item 215, Textbooks. Mr. Ferguson moved that \$18,750.00 be raised and appropriated for textbooks. Mr. Davis seconded the motion. Mr. Ferguson stated that this amount was based on actual requests for books. The Budget Committee recommended taking last years figure, which provided some major revamping, plus a 15% increase in cost. Motion was put to vote. Motion lost.

The Budget Committee's recommendation of \$17,000.00 was put to vote. Motion carried.

Discussion moved to item 220, library and audio visual. Mr. Ferguson moved that \$22,220 be raised and appropriated for library and audio visual. Seconded by Mr. Shuman.

Mr. Philbrick made a motion to amend the amendment to read \$17,520 a reduction of \$4700. Seconded by Harold Remick. Mr. Davis pointed out that although the School Board members aren't professional educators they do know the standards set by the professionals. The Area School library fell far below the suggested number of books in all categories listed. In a time stressing individual research by the students, Mr. Davis stated that we should build up the library to be useful for both students and teachers.

Mr. Philbrick's motion was put to vote. So voted.

Mr. Ferguson requested a standing vote in the motion of \$17,520. Motion carried. 139 yes votes. 56 no votes.

The Budget Committee's recommendation of \$17,520 for library and audio visual was put to vote. So voted.

Items No. 230, No. 235, No. 290 as recommended by the Budget Committee were approved.

Attendance, Health, and Transportation Series were approved as recommended by the Budget Committee. The increase in the transportation series was attributed to the cost of transporting the handicapped children.

Operation and maintenance of the plant, Series 600 and 700, and series 800 Fixed Charges were approved as recommended by the Budget Committee.

Series 900 and 1000 were approved as recommended. Student Activities were explained as plays intramurals, etc. with the major portion relating to athletic programs. This year's proposed budget includes funds for starting a junior varsity football team.

Under the No. 1200 Series the sites item was not recommended by the Budget Committee. Mr. Ferguson explained that this \$5,000.00 was for paving at the farther end of the Jacques School playground. Mr. Barrett stated that the Budget Committee would prefer to have a complete plan presented and the money raised in a warrant article to do the whole project.

Mr. Ferguson moved that \$5,000.00 be raised and appropriated for the sites item. Mr. Davis seconded. Mr. Mario Infanti asked for the playground committee's report. Mrs. Edith Hunter reported that her committee felt this large item should be handled by the School Board, that the teachers had requested the paving and that this would at least start the project.

Mr. Ferguson's motion was put to vote. Moderator Grasso called for a standing vote. Motion was lost. 75 yes votes. 102 no votes.

Item No. 1266, Buildings, was approved as recommended. Mr. Ferguson moved to raise and appropriate the sum of \$10,820.00 for Equipment. Mr. Shuman seconded the motion. Mr. Ferguson stated that this additional money was needed to improve the music department. Mr. Davis stated that the people had in effect hired a new music teacher earlier in the budget and now should provide instruments requested for the band. Mr. Ferguson's amendment was put to a vote. Motion was lost.

Budget Committee's recommendation of \$9,013.00 for Equipment was approved.

The remaining series numbered 1300, 1400, 1500 and 1600 were approved as recommended. A resolution was introduced by Mr. Robert Philbrick under item 1477.3, Supervisory Union Share. It read Resolved: The meeting expresses its sense as being in agreement with the Budget Committee with regard to Supervisory Union expenses. The School Committee should diligently move to hold down these expenses in the future. This resolution was approved and accepted by the majority.

Mr. William Edwards moved that the School District vote to sell and

convey to the owner of the Professional Building a certain tract of land located westerly and northerly of the Professional Building, subject to a right of way, said tract consisting of a strip of land twenty feet in width westerly of and paralleling the land of the Professional Building and a strip northerly of the land of the Professional Building and southerly of the Souhegan River. Motion was seconded by Mr. Lovell Wright. Mr. Edwards explained that he wanted the land for enlarged parking facilities, that the town would retain a right of way for access to the lower playgrounds, and that he had not had the land surveyed because it meant money spent beforehand.

Mr. Barrett stated the Budget Committee felt that the School District should retain all land it owns. Several others expressed this same view. Moderator called for the vote. Motion was lost.

On the recommendation of the Budget Committee Study Committee a motion was made that the District vote that the Budget Committee shall consist of fifteen members whose duty it shall be to bring recommendations before the Town and School District Meetings on all items of budget, warrant articles, and other matters concerning both Town and School District Meetings and present their findings in separate printed reports at least four days before the day of the annual Town and School District Meetings; said Committee to be available throughout the year for consultation and advice; said Committee to serve without compensation. Motion was seconded and put to vote. So voted.

Mr. Ferguson moved that the District vote to raise and appropriate the sum of \$6,680.00 for the purchase of a tractor to be used for the upkeep of school grounds. Seconded by Mr. Davis. Mr. Ferguson stated that the school must have equipment to prepare fields for football and soccer activities and that past experiences had shown the town equipment was not always available when needed.

Mr. Barrett stated the committee felt that the town and school officials should cooperate and they did not recommend this purchase.

Selectman Charles Sullivan stated that the town did not have the time to answer all requests and that they would be cooperative providing there was ample time and equipment to do it. Mr. Ferguson's ammendment was put to vote. Motion was lost.

Based on the Budget Committee's recommendation, Mr. Barrett made a motion that \$500.00 be raised and appropriated for mowing of the school grounds. Mr. Richard Clermont seconded the motion. So voted.

Mr. Ferguson moved that the District raise and appropriate the sum of \$6,435.00 as a deficiency appropriation for interest due on the Bales Elementary School on June 15, 1969, and to authorize the Selectmen to make the money available to the school prior to June 15, 1969. Motion was seconded by Mr. Shuman. So voted.

Mr. Ferguson moved that the District raise and appropriate \$22,000.00 for use by the School Board to employ an architect to prepare final plans for phase II of the Area Junior High School. Seconded by Mr. Shuman. So voted.

Mr. Robert Wisniewski made a motion that the Moderator appoint a committee of at least five members, one a teacher in the Milford Schools, to work in cooperation with the School Board to study the concept of the year-round school as it applies to secondary education for Milford; and that said committee shall report, with recommendations at least one month prior to the March 1970 Town Meeting. Motion was seconded by Mr. Lester Perham. So voted.

A rising vote of thanks was given to Mr. Charles Ferguson for his nine years as a member of the Milford School Board.

The meeting was recessed at 11:30 p.m. until March 11, 1969 at 2 p.m. for the purpose of electing District officers and then to adjourn until March, 1970 at 7:00 p.m.

Respectfully Submitted,

BEVERLY CULLINAN
